About Amity University:
Amity University Noida is India’s top ranked non-profit private University established through state legislature, with powers to award degrees. Amity University has been awarded the coveted ‘A’ rating by National Assessment & Accreditation Council (NAAC). Testimonies to Amity’s quest for world-class education are the various prestigious national and international recognitions. Very recently, Amity received the Indian Education Award 2012 (the National Education Awards) for the best non-profit private University in India.

About Amity Institute of Anthropology
Amity Institute of Anthropology (AIA) is dedicated at educating and conducting research on the diversity of the world’s contemporary cultures and to raise awareness concerning cultural and biological diversity, and the significance of this knowledge to their lives. To give students more exposure to latest development in the field of Applied Anthropology, AIA focuses in providing students with a comprehensive training in the various aspects of human beings.

National Seminar
On
“Applied Anthropology: Paradigm Shift and Challenges”
(March 3-4, 2014)

Organized by:
Amity Institute of Anthropology,
Amity University
Noida, Uttar Pradesh-201303
Theme
The Seminar aspires to promote the integration of anthropological perspectives and methods in solving human problems; to promote public recognition of anthropology as a profession; and to support the continuing professionalization of the field. Application of anthropology in this fast-paced world which is changing even faster with the passage of time is one of the challenges for the scholars of the discipline. It aims to bring together nationally renowned scientists and young scholars to discuss the latest developments, trends, and applications of Anthropology and allied subjects in various areas of mankind.

The Seminar will focus on the areas of applying anthropology to the contemporary challenges. The present seminar paves a platform for all the anthropologists to draw upon an understanding of the linguistic, archeological, historical, biological, psychological, ecological, economic, technological, social and cultural dimensions of the human being. We seek stimulating, creative and scientific sessions and presentations that share the perspectives of our practitioners.

Objective of the Seminar:
• To scientifically analyze the paradigm shift and challenges of the discipline of applied anthropology
• Integration of the sub-branches and specialization of anthropology
• To deliberate upon the future course of the discipline from the various research findings and discussion to cater to the need of the era
• To analyze and establish the relationship of applied anthropology with other biological and social science researches

Some of the Major Themes are:
• Socio-Cultural Anthropology
• Cultural Ecology and Health
• Globalization, Urbanization and Migration
• Bio-Social Issues in Health
• Tribal Health and Welfare
• Archaeology and Recent Finding
• Population Genomics
• Immunogenetics
• Genome Diversity and Evolution
• Medical Genetics
• Ethics in Medical Research
• Physiological Anthropology
• Forensics & Criminology
• Statistical Methods and Techniques in Life/Social Sciences

Level of Participation
• Renowned scholars from various Universities and Research Institutes such as Indian Council of Medical Research, Delhi University, Anthropological Survey of India etc
• Teachers of different Universities and Colleges involved in biological and Social Science research;
• Government Officials of different Institutes dealing with mankind such as medicine, culture etc;
• Research Scholars attached to various branches of Anthropology; and Government/NGOs/VOs functionaries
