MANUSCRIPT GUIDELINES

ORIGINALITY

➢ Paper submitted should be an original and unpublished work. Any paper submitted which is identical or substantially similar to research work already published or under review for another publication will not be considered.
➢ A covering letter clearly certifying that the manuscript is original and has neither been published anywhere or is at present being considered for any other publication should accompany the manuscript.

STRUCTURE OF THE MANUSCRIPT

The manuscript should be accompanied by the following:

➢ An abstract of 300 words with five key words and JEL classification.
➢ The recommended length of the research article should be between 6000-9000 words.
➢ Use single quotes throughout. Spellings of words in quotations should not be changed.
➢ Use ‘nineteenth century’, ‘1980s’. Spell out numbers from one to nine, 10 and above to remain in figures. However, for exact measurements use only figures (3 km, 9 per cent not %). Use thousands and millions (e.g., not lakhs and crores).
➢ Use of italics and diacriticals should be minimized, but used consistently. Avoid excessive use of italics for emphasis, but use italics for book titles, journal names and foreign words.
➢ All files should be submitted as a word document.

ARTICLE TITLE PAGE

➢ Author Details

Details should be given on the Article Title Page including:

➢ Full name of each author.
➢ Affiliation of each author, including current designation and affiliation, complete postal address, phone number, fax number (if any) and e-mail address at time the research was completed.
➢ Where more than one author has contributed to the paper, details of who should be contacted for correspondence.
➢ E-mail address of the corresponding author.
➢ Brief professional biography of each author (not more than 100 words).
Kindly do not mention the author(s) name, affiliation and any other information inside the manuscript. The affiliated institutions are to be listed directly below the names of the authors. Multiple affiliations should be marked with superscript Arabic numbers, and they should each start on a new line.

PAPER CLASSIFICATION

Categorize your paper on the Title Page, under one of these classifications:

- Research paper
- Viewpoint
- Conceptual paper
- Case study
- Literature review
- General review.
- Doctoral Dissertations

HEADINGS

The heading should follow the APA style. There are 5 heading levels in APA. Regardless of the number of levels, always use the headings in order, beginning with level 1. The example of the format of each level is as follows:

<table>
<thead>
<tr>
<th>Level</th>
<th>Format</th>
</tr>
</thead>
</table>
| 1     | Centered, Boldface, Uppercase and Lowercase Headings  
The paragraph begins below indented like a regular paragraph |
| 2     | Left-aligned, Boldface, Uppercase and Lowercase Heading  
The paragraph begins below indented like a regular paragraph |
| 3     | Indented, boldface, lowercase heading with a period. Begin body text after the period. |
| 4     | Indented, boldface, italicized, lowercase heading with a period. Begin body text after the period. |
| 5     | Indented, italicized, lowercase heading with a period. Begin body text after the period. |

If the first word can stand alone, the second word should be capitalized. Here are some examples of headings: “A Comparison of UK and India’s Advertising Self-Regulation Systems”, “The Use and Non-use of e-Print Archives for the Dissemination of Scientific Information”, “A User-Friendly and Extendable Data Distribution System” and “Multi-ethnic Study of Atherosclerosis”.

FONT AND FORMAT

- All manuscripts should be submitted in Word format, with 1.5 line spacing, 12-point font, font type Times New Roman and 1-inch margins on all sides.
FIGURES, TABLES AND EXHIBITS

- Each Figure, Table, or Exhibit should be given on a separate sheet. Figures, Tables and Exhibits are to be separately numbered, titled and attached at the end of the text serially. The position of the Figure, Table, or Exhibit should be indicated in the text on a separate line with the words "Table 1 about here".

TABLES

✓ NUMBERS

- All tables should be sequentially numbered with Arabic numerals.
- If the manuscript includes an appendix with tables, identify them with capital letters and Arabic numerals (e.g. Table A1, Table B2).

✓ TITLES

- The title of the table should be clear, concise and self-explanatory. For e.g., an appropriate title would be “Variables for Studying the Determinants of Employee Satisfaction” instead of “Variables of the Study”
- When appropriate, you may use the title to explain an abbreviation parenthetically. For e.g., Comparison of Median Income of Adopted Children (AC) v. Foster Children (FC)

✓ HEADINGS

- Keep the headings clear and brief.
- Every column in the table should have a column heading

✓ REPORTING DATA

- All values should be indicated in million or billion.
- Numerals should be expressed to a consistent number of decimal places.
- All the abbreviations and special symbols should be explained.
- If the table or its data are from another source, the source should be properly cited.

✓ FORMAT

- Tables should be given on a separate sheet.
- The entire table should be single spaced including title, headings and notes.
- The table should be referred in the text. The text should explain what the reader should look for when using the table or figure.
The tables can be either coloured or black and white.
Abbreviations, terminology, probability level values must be consistent across tables and figures in the same article.
Likewise, formats, titles, and headings must be consistent. Do not repeat the same data in different tables.

FIGURES AND GRAPHS

Tables and graphs should be submitted in their original Word/Excel format. PowerPoint slides and screen grabs should be avoided where possible.
Number all the figures consecutively with Arabic numerals.
Mention all figures in the text.
Avoid overuse of special effects like 3D effects, shading and layered text.
One-column figures must be between 2 and 3.25 inches wide (5 to 8.45 cm).
Two-column figures must be between 4.25 and 6.875 inches wide (10.6 to 17.5 cm).
The height of figures should not exceed the top and bottom margins.
The text in a figure should be in Times New Roman.
The font size must be between eight and twelve point
Use circles and squares to distinguish curves on a line graph (at the same font size as the other labels).
For figures, include the figure number and a title with a legend and caption. These elements appear below the visual display. For the figure number, type Figure X. Then type the title of the figure in sentence case. Follow the title with a legend that explains the symbols in the figure and a caption that explains the figure. For example, Figure 1. Corporate Social Responsibility Index. This figure illustrates the corporate social responsibility scores of IT firms in India.
Captions serve as a brief, but complete, explanation and as a title. For example, “Figure 4. Population” is insufficient, whereas “Figure 4. Population of Tribal Races, Indian Subcontinent (1980)” is better.
Graphs should always include a legend that explains the symbols, abbreviations, and terminology used in the figure.
These terms must be consistent with those used in the text and in other figures.
The lettering in the legend should be of the same type and size as that used in the figure.

FOOTNOTES AND ENDNOTES

Use of footnotes and endnotes should be minimum.
REFERENCES

- References should be complete in all respects, with authors’ surnames arranged alphabetically following conventional citation styles.

SUBMISSION OF MANUSCRIPT

- Manuscripts may not have been published previously or be under review with another journal.
- The author(s) should submit a soft copy of the manuscript in MS Word to Editor-in-Chief, Amity Journal of Marketing (AJM) at ajm@amity.edu which will be duly acknowledged.
- Paper submissions can be made at any time.
- Submission deadlines: September 15 for December issue and March 15 for June issue.

PEER REVIEW POLICY

The Amity Journal of Marketing (AJM) adheres to an accelerated and rigorous double-blind reviewing policy in which the identity of both the reviewer and author are concealed from each other. Each manuscript is reviewed by four referees. All manuscripts are reviewed as quickly as possible, and an editorial decision is generally reached within 8-10 weeks of submission.

The submitted manuscripts will be assessed by reviewers with domain knowledge of the submission’s main research area, and by at least one reviewer who comes from a discipline outside the author’s own field.

All manuscripts are assessed initially by the Editors and only those papers will be sent for outside review that meet the methodological and editorial standards of the journal and fit within the aims and scope of the journal. Papers rejected prior to outside review may be resubmitted accompanied by a letter detailing how the initial reasons for rejection have been overcome.
The reviewers’ recommendations determine whether an article will be

- Accepted
- Accepted subject to minor changes
- Accepted subject to resubmission with significant changes
- Rejected.

For articles which require changes, the same reviewers will be used to ensure that the quality of the revised article is acceptable.

Multiple Authors: In case of multiple authors, the “corresponding author” will be responsible for the collection and provision of the copyright form from each author after acceptance.
