MESSAGE FROM THE DEAN HEALTH AND ALLIED SCIENCES

Dear Recruiter,

It is my privilege to introduce the Amity Institute of Public Health & Hospital Administration (AIPH&HA), established in 2012 at Amity University Uttar Pradesh, Noida, as a center of excellence dedicated to shaping the next generation of healthcare leaders. Since its inception, AIPH&HA has championed a people-centered approach to health and development—grounded in dignity, equity, social justice, and inclusivity.

Our academic portfolio spans public health, hospital administration, healthcare management, policy studies, healthcare human resource development, and applied health research and innovation. By combining rigorous academics with hands-on fieldwork, we contribute meaningfully to policy formulation, system strengthening, and innovative solutions for today's healthcare challenges.

We offer specialized academic programs including Master's in Hospital Administration and master's in public health, with focus areas in Health Administration, Social Epidemiology, and Health Policy, Economics & Finance. In addition, we provide a Bachelor of Business Administration (BBA) in healthcare to build strong managerial foundations at the undergraduate level, and an M.Sc. in Healthcare Informatics to prepare experts in digital healthcare solutions including AI. Besides, we have rigorous Ph.D. program in all these disciplines. Collectively, these programs nurture not just competent professionals but visionary leaders ready to make an impact globally. Our curriculum is uniquely designed, with 40% of learning devoted to structured Internships in leading healthcare organizations, ensuring graduates are industry ready. Every student also undertakes a dissertation, building research skills and inculcating critical thinking in creating new knowledge and discovery.

I extend a warm invitation to all healthcare organizations, research institutions, and insurance sectors to explore placement opportunities with our students. I am confident that they will bring value, innovation, and lasting impact to your organization.

Prof. Bhudev Chandra Das,

Dean, Health & Allied Sciences,
Chair, University Research Council (URC)
Amity University Uttar Pradesh.

MESSAGE FROM THE DEPUTY DEAN HEALTH AND ALLIED SCIENCES

Dear Recruiter,

Warm greetings from the Amity Institute of Public Health And Hospital Administration,

It is with great pride and pleasure that I present to you the talented and dynamic students of the Amity Institute of Public Health & Hospital Administration. Our institute has consistently strived to build a foundation of academic excellence, research, and real-world exposure that prepares our students to meet the complex challenges of the healthcare and public health sectors.

At AIPH&HA, we nurture professionals who are not only equipped with strong technical knowledge but also possess critical thinking, leadership skills, and a strong sense of social responsibility.

As our students step into the professional world, I am confident they will bring value, commitment, and a fresh perspective to any organization they join. I extend my heartfelt gratitude to all our recruiting partners for their continued support and trust in our students.

We look forward to building meaningful and lasting collaborations with esteemed organizations and contributing to a healthier and more sustainable future together confident that they will bring value, innovation, and lasting impact to your organization.

Prof. Tanveer Naveed,

Deputy Dean- Health and Allied Sciences,
Amity University, Uttar Pradesh

MESSAGE FROM THE ASSISTANT DIRECTOR

Dear Recruiter,

Greetings from AIPH&HA

It is with immense pride that we present the graduating batch of our Masters in Hospital Administration program. In an era where healthcare delivery is defined by complexity, efficiency, and patient-centricity, our curriculum has been meticulously designed to sculpt the next generation of healthcare leaders. We immerse our students in a rigorous academic environment that blends core management principles with the nuanced realities of hospital operations, quality assurance, and financial stewardship. Through hands-on projects, industry internships, and case-based learning, they are trained not just to manage, but to innovate and lead with vision.

Our MHA graduates are more than just qualified; they are prepared. Each student embodies a unique combination of analytical acumen, strategic thinking, and a deep-seated commitment to ethical healthcare. They are equipped to drive operational excellence, enhance patient outcomes, and navigate the dynamic challenges of the modern hospital ecosystem.

We confidently recommend them to your esteemed organization and invite you to engage with this pool of talented, future-ready administrators who are poised to deliver exceptional value from day one.

Prof. Bhooma Devi

Professor and Assistant Director,
Amity Institute of Public Health & Hospital Administration,
Amity University, Noida

MESSAGE FROM THE PLACEMENT COORDINATOR

It gives me immense pleasure to present the bright and capable students of the Amity Institute of Public Health & Hospital Administration (AIPH&HA) to our esteemed recruiting partners.

At AIPH&HA, we believe in shaping future professionals who are not only academically strong but also industry ready. Our students undergo a holistic development process, blending rigorous academic learning with hands-on training, Internships, live projects, and exposure to the latest trends and challenges in healthcare and public health systems.

The Corporate Resource Centre plays a vital role in bridging the gap between academia and industry. We constantly engage with leading organizations, institutions, and experts to bring meaningful placement opportunities for our students and ensure alignment with the evolving needs of the sector.

We are proud of our students' dedication, discipline, and drive to make a difference. I am confident they will prove to be valuable assets to your organizations and contribute effectively from day one.

I sincerely thank our existing recruitment partners for their continued support and inviting new organizations to join hands with us in nurturing the next generation of healthcare and public health leaders.

Mrs. Disha Sajnani

MESSAGE FROM THE PROGRAM LEADER

Do not follow where the path may lead. Go instead where there is no path and leave a trail."-Ralph Waldo Emerson

The Master of Hospital Administration (MHA) program at AIPH&HA, Amity University, Noida stands out as a specialized course that blends academic excellence with practical exposure, co-curricular engagement, and industry readiness.

With the rapid expansion of the healthcare sector, this program opens doors to a wide range of career opportunities covering hospitals, consulting, health-tech, insurance, and more. At Amity, we ensure that students are not only equipped with the right knowledge and leadership skills but are also supported through robust placement assistance and industry networking platforms to help them step confidently into the professional world.

As someone actively involved in shaping and mentoring young healthcare leaders, it gives me immense pride to witness the growth of our students.

Wishing all our future hospital administrators a bright, impactful, and fulfilling journey ahead!

Dr. Archana Koul

Assistant Professor- I

Amity Institute of Public Health and Hospital Administration,
AUUP

ABOUT AIPH&HA

Amity Institute of Public Health And Hospital Administration Forges Ahead Reinventing And Reimagining The Future

Established in the year 2012 as Amity Institute of Public Health and Hospital Administration F1 block. Started with only Masters in Hospital Administration (MHA) and master's in public health (MPH). In 2013 Amity Institute of Public Health and Hospital Administration became two separate departments as Amity Institute of Public Health (AIPH) & Amity Institute of Hospital Administration (AIHA). In 2015, BBA in Healthcare Management was introduced as the undergraduate program for Amity Institute of Hospital Administration (AIHA). In 2018 both the institutes Amity Institute of Public health & Amity Institute of Hospital Administration were shifted to second floor J1 block.

The Institute is committed to providing its students with a comprehensive education that prepares them for successful careers in public health and hospital administration incorporating disciplines of modern healthcare and in the futuristic and emerging frontier areas of health knowledge, learning and research and to develop the overall personality of students. The institute offers a variety of undergraduate, postgraduate, and doctoral programs. Its faculty is composed of highly qualified and experienced professionals from the fields of public health, medicine, and business. The institute's alumni are working in leading organizations around the world, making a difference in the lives of millions of people. Amity Institute of Public Health & Hospital Administration is in J1 block 2nd floor 201, Amity University, Noida, India.

The institute has a strong research focus, and its faculty is actively engaged in research projects that address some of the most pressing public health and hospital management challenges of our time. The placement of pass out students is almost hundred percent. Some students run their family businesses or startups and some further join international higher educational institutions for higher studies.

VISION

To become a globally renowned institution distinguished for its commitment to advancing excellence in healthcare management education, cutting edge research, and groundbreaking innovation. We aim to nurture visionary leaders equipped with the knowledge, skills, and ethical foundations to drive transformative changes in healthcare delivery systems.

MISSION

Shaping compassionate professionals by equipping them with the essential knowledge, skills, and attitudes needed for effective Social Work and Human Resource Management. Fostering strategic partnerships with diverse stakeholders to enhance learning and training opportunities. Striving to establish benchmarks for high quality social work practices nationwide.

STUDENT INITIATIVES

At the Amity Institute of Public Health and Hospital Administration, student initiatives give learners the chance to go beyond the classroom, take ownership of real-world projects, and create meaningful impact.

As part of their commitment to experiential learning, students of the Amity Institute of Public Health and Hospital Administration took the lead in organizing the high-profile panel discussion on “Reimagining Healthcare: The Role of AI and Digital Health in Smart Care” on January 24, 2025. They worked closely with an eminent panel of speakers, including Dr. Suneela Garg, Professor and Head of Community Medicine at Maulana Azad Medical College, and Dr. Vijay Agarwal, President of the Consortium of Accredited Healthcare Organizations (CAHO), along with other distinguished experts — Dr. Suren Shukla, Dr. Saurabh Gehlot, Mr. Satish Kumar, and Dr. Anandhi Ramachandran. From coordinating logistics and managing the auditorium setup to personally welcoming speakers and facilitating smooth audience interaction, students ensured the event ran seamlessly. Through their active engagement, they not only gained rare exposure to national healthcare leaders but also deepened their understanding of AI’s transformative role in diagnostics, patient care, and healthcare operations — an experience that beautifully blended learning with leadership.

In addition to the campus activities, students also organized an outreach program on Breast cancer awareness program at a local school, specifically engaging women and adolescent girls to raise awareness, answer queries, and encourage early preventive practices, thereby extending the impact of the initiative beyond the university. The program fostered an environment of open dialogue, enabling participants to seek clarifications and share concerns in a supportive setting. By integrating academic learning with community engagement, the students not only advanced critical public health messaging but also enhanced their competencies in health communication, event management, and stakeholder collaboration reflecting their preparedness to contribute meaningfully to public health practice

नुक्कड़ नाटक से बताया स्वच्छता का महत्व

अटल पार्क में आयोजित कार्यक्रम में लघु नाटिका पेश करते विद्यार्थी। संवाद

संवाद न्यूज एजेंसी

करनाल। नगर निगम व सुगम स्वच्छता टीम के संयुक्त तत्वावधान में अटल पार्क के योगा हॉल में प्रशिक्षण कार्यक्रम का आयोजन किया गया। इस कार्यक्रम में एमआईटी विश्वविद्यालय के छात्रों ने नुक्कड़ नाटक के माध्यम से पीपी किट के महत्व के बारे में बताया।

सुगम स्वच्छता की टीम को ठोस कचरे के समुचित निपटान के तरीके के अवगत करवाया गया। प्रशिक्षण शिविर के माध्यम से टीम को स्वच्छता के गुरु भी बताए गए। इस दौरान ठोस कचरा प्रबंधन

के पांच कूड़ेदानों के बारे में विस्तार से बताया कि किस तरह से घरों से निकलने वाले कचरे का समुचित निपटान जरूरी है।

उन्होंने बताया कि यदि इस कचरे का सही तरीके से निपटान न किया जाए तो यह पर्यावरण के साथ-साथ हमारे स्वास्थ्य के लिए भी हानिकारक हो सकता है। प्रशिक्षण कार्यक्रम में डिजिटल माध्यम से बताया गया कि घरों से निकलने वाले कचरे का किस तरह से निपटान किया जाए। इस मौके पर मास्टर गुरदेव सिंह, सुगम स्वच्छता की टीम, मोटीवेटर व सहायक मौजूद रहे।

As part of their commitment to community health, environmental responsibility, and worker welfare, students actively participated in a cleanliness awareness training program organized at Atal Park through a collaboration between the municipal corporation and the Sugam Swachhta team. The students presented a short, engaging street play that effectively communicated the critical importance of cleanliness and proper waste management to the local community. Through this creative medium, they educated the audience on managing five specific types of household waste and demonstrated the correct methods for segregation and disposal, emphasizing the environmental and health benefits of responsible waste handling. In addition to public awareness activities, the students also conducted a targeted training session for sanitation workers on occupational hazards and workplace safety, focusing on preventive measures, use of protective gear, and safe waste-handling practices to reduce health risk

MASTER OF HOSPITAL ADMINISTRATION (MHA)

“Administration in healthcare is the backbone that supports the synergy between hospitals, insurance, diagnostics, and consulting, ensuring seamless care delivery”

Dr. Michael Porter

ABOUT US

The Master of Hospital Administration (MHA) program at Amity University Noida is a two-year postgraduate degree program that prepares students for careers in hospital administration. The program is designed to provide students with the skills and knowledge they need to manage and lead hospitals and other healthcare organizations.

The total duration of course is for Two years structured into 4 semesters of 25-30 credit hours each. The fourth semester is hospital training & research/project based. The programme also includes Internship and case studies. The program has a mix of both core and elective courses. It provides students with a strong foundation in Human resource management, Patient care management, Information management, Quality improvement, Compliance and risk management, Budgeting, and financial management. Practical component of the Program includes industry visits in addition to classroom-based learning. students are also exposed to a variety of community and industry-based programmes along with value added courses of Behavioural Sciences, Business Communication & Foreign Business Language. They gain practical experience through mandatory Internships, Industrial visits and dissertation etc.

The unique pedagogy, which includes studying innovative healthcare organizations through case studies, a robust curriculum, and regular industry interactions, enables graduates to excel across the healthcare value chain. The program's relevance spans various domains, including hospitals, healthcare consultancy, digital health, health IT, health analytics, pharmaceuticals, insurance, diagnostics, biomedical devices, and research.

EMPHASIS ON INTERSHIPS:

The curriculum is structured to provide students with a clear educational roadmap, focusing on three crucial eight-week Internships in either type of Hospital.

01

Corporate Hospital- Strategic planning, operational excellence, and innovation in a corporate healthcare setting

02

Trust Hospital- Balancing service delivery with charitable missions, focusing on sustainable healthcare models and ethical decision-making.

RESEARCH

01

Dissertation Project
Each student must complete a final year dissertation, guided by both faculty and industry experts, as part of the program

02

Skill Development:
The project is designed to equip students with the necessary skills and knowledge to professionally address healthcare trends or specific issues affecting hospital operations after graduation.

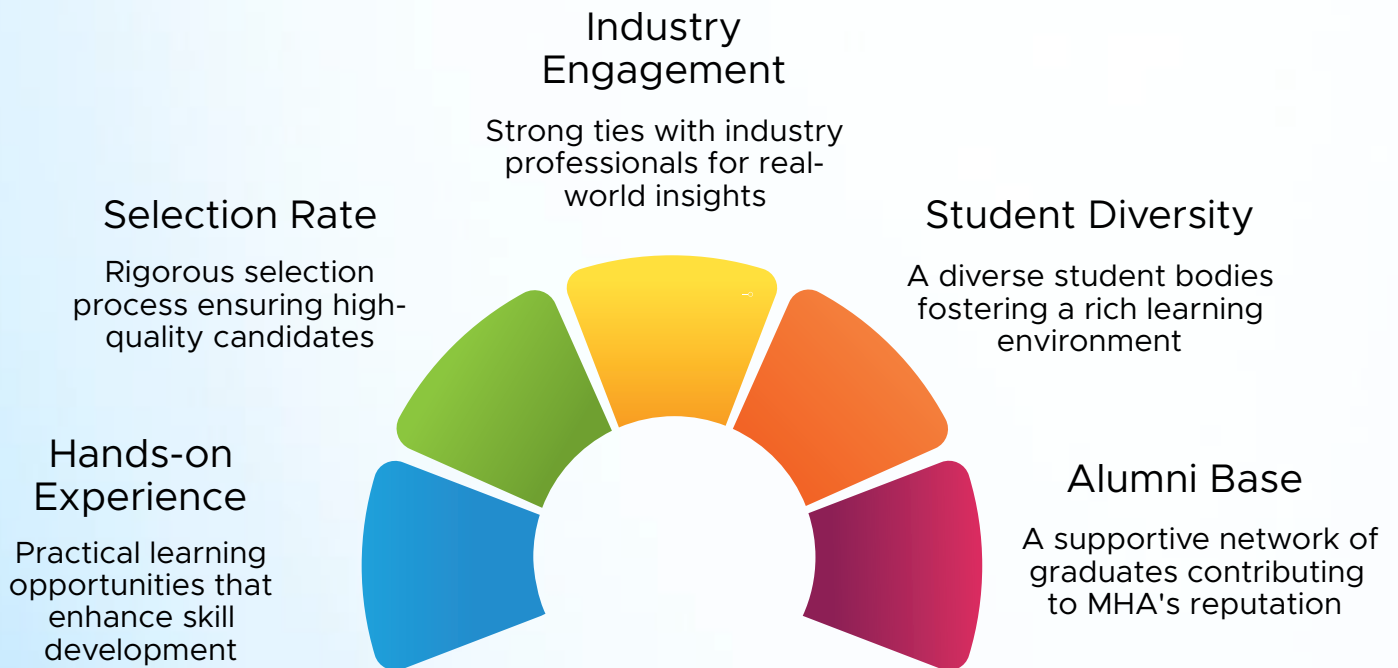

03

Comprehensive Learning:
This approach ensures that graduates are not only grounded in theory but also capable of making practical contributions to the healthcare industry.

04

Industry Readiness:
By the end of the program, students are prepared with the skills needed to effectively contribute to both their future organizations and the broader healthcare sector.

WHY RECRUIT AT AIPH & HA?

Diverse Student Profiles

At AIPH&HA, a mix of students from diverse academic and professional backgrounds creates a rich learning environment. Peer-to-peer exchange broadens perspectives, enhances problem-solving, and sharpens analytical skills. Our programs are designed to develop skilled, adaptable, and industry-ready healthcare professionals capable of identifying challenges and designing effective solutions.

Industry- Integrated Curriculum

Learning at AIPH&HA goes beyond textbooks. Guest lectures, case study discussions, and live projects bring real-world insights into the classroom, helping students stay aligned with current industry trends and practices.

Internships

Hands-on learning is central to our approach. Students spend 5–6 months subdivided into 2 portion as summer Internship and final semester Dissertation Internships spanning government bodies, non-profit organizations, and corporate healthcare settings, gaining practical exposure and building professional confidence.

Student Driven Institutional Culture

AIPH&HA encourages self-governed student initiatives that nurture leadership, critical thinking, and innovation, empowering students to challenge themselves and excel beyond the classroom.

GUIDELINES FOR RECRUITERS

1. The Placement Process of Amity Institute of Public Health & Hospital Administration, AIPH&HA for this year is slated to begin from the Last week of September 2025. The process can be conducted in both offline and online formats as per the convenience of the recruiter. Though offline in person drive will be appreciated.
2. Organizations that wish to recruit from AIPH&HA, will have to communicate their interest to our Deputy Manager – CRC through an e-mail on the official mail ID (dsajnani@amity.edu) of AIPH&HA.
3. To facilitate the slotting process and make the engagement smooth, organizations are requested to provide the following details in their communication.
 - a. Job Description & Position Offered
 - b. Geographical Location of the Job
 - c. Number of Positions Open
 - d. Compensation (CTC) & Other Incentives
4. Organizations willing to recruit from AIPH&HA are expected to give a Pre-Placement Talk to the students. The Preplacement talk can be given on the same day the slot has been assigned to the organization or any other day comfortable for the organization.
5. In case the organization chooses to give the presentation on a day other than the assigned slot, the same should be conveyed to the placement committee in advance, so that appropriate arrangements can be made.
6. Organizations are expected to inform the Placement Committee of the probable nature of the tests, number of rounds it wishes to take, and the expected time duration required to conduct these rounds. The procedure for plotting prospective recruiters for the placement process will be done in accordance to the ranking criteria set by the institute.

7. All organizations will be required to prepare a waiting list in addition to the candidates selected for the roles at the end of the selection process.

8. Organizations must confirm the candidates selected by giving their names in either soft or hard copy duly signed by the company official/HR/talent acquisition team on the same day after finishing the last stage of selection process

9. In case the organization is unable to declare the result on the same day due to unforeseen circumstances, then the student is allowed to participate in other companies & the final status will depend upon who declares the result first.

10. A written confirmation letter from the selected candidates confirming her/his willingness to join the organization needs to be produced within 24 hrs. of the selection. Failing which the organization is requested to extend the offer to the next waitlisted candidate on their list at the earliest. It may choose to not offer as well.

11. The organization shall provide the offer letters to the Placement Committee in official mail and not directly to the students. In case this is an auto generated process then the organization should intimate the Placement Committee about offer release status with date by keeping official mail in loop.

PLACEMENT PROCEDURE

follows the following stages:

Registration

All organizations that are interested in recruiting students are required to communicate their interests via email. The organizations are requested to communicate their interest at the earliest so that we can invite them for pre- placement talk on a mutually convenient date.

Pre-placement Talk

Post successful registration/pre-placement talk, the organizations are given the option of circulating their customized application form or accept the resumes of the interested students.

Slotting

Each organization is allotted a unique date and time on which it can take interviews of the shortlisted candidates. The slot assigned to the organization will be decided by the placement committee based on institute's norms and will be communicated to the organization in advance.

Offers

The acceptance or rejection of the offers by the selected candidates will be communicated to the organisation within the committed time by the placement committee.

Acceptance/rejection of offers

The acceptance or rejection of the offers by the selected candidates will be communicated to the organization within the committed time by the placement committee.
