

## Panel Discussion on Cloud & Edge Computing in the age of 5G & IoT

**Date:** 28<sup>th</sup> February, 2020

**Venue:** F1 seminar hall

### Overview

Eminent and senior industry leaders from various companies like, Mahindra, General Mobile, Ericsson, Schneider Electric etc. were speakers at the event. The event mainly focused on the upcoming 5G Network and its advantages over the pre-existing networks available worldwide and how it is a game-changer in the upcoming times. All the speakers imparted knowledge on how the IOT is going to change things at big scale when 5G network is fully established. Students had a major concern as to the impact 5G is going to have on the health of people worldwide and how the industry is aiming to resolve the health problems of the people.
