Amity University is a research driven University which offers higher education in diverse field from Engineering, Management, Life Sciences, Applied Science and the like. Amity University provides quality platform for research in field of Academics. The campus is organizing International Conference on Research, Innovation Knowledge Management and Technology Application for Business Sustainability on 17th – 19th Feb 2021.

This Conference includes many topics which were deeply deliberated and which brewed new ideas. Thus, giving rise to new avenues for researcher. We aim to take those concepts further to derive fresh hypothesis and arrive at the logical deductions. The participation of scientist from across the globe was very encouraging in our last conferences organized in India. This time we are anticipating even larger congregation from more diverse domains as we are reaching out too many eminent philosophers, thinkers and academicians from scientist fraternity.

Sub-themes (but not limited to):

- AI in Blockchain for Sustainable Growth.
- Technological Innovations in Marketing for Future Ecosystem.
- Information and Communication Technologies (ICT)-based Innovations for Sustainable Production & Service Operations Management.
- New and Improved Processing Technologies Application for Sustainable Growth in Developing Countries.
- Econometric and Mathematical modelling for Sustainable Economic Processes.
- Digital Age for Sustainability of Blockchain Cross-Cultural Management.
- Data Analysis in Global Businesses.
- 3D-printing in Business Sustainability.
- ICT infrastructure and Services in Right Trade Logistics and Cross-Border.

Note: It is a mandatory requirement that all papers submitted for this session must be e-mailed to msharma9@amity.edu along with [EasyChair](#) submission.
