15. GRADING SYSTEM

(1) The level of students' academic performance as the aggregate of continuous evaluation and end term examination shall be reflected by letter grades on a ten-point scale according to the connotation as per **Table –A**

TABLE -A

Grade	Qualitative Meaning	Grade Point Attached
A+	Outstanding	10
A	Excellent	9
A-	Very Good	8
B+	Good	7
B	Above Average	6
B-	Average	5
C+	Satisfactory	4
C	Border Line	3
F	Fail	0

(2) General guidelines for award of Grades are:

(i) Evaluation of different components of a Course Unit for each student shall be initially done in numerical marks.

(ii) The marks of different components viz., internal continuous assessment of course work, practical etc. and end term examinations shall be assigned relative weightage as prescribed in curriculum and scheme of examination of a programme and added. The total marks obtained shall be out of 100 and the same would be converted into grades in 10-point scale.

(iii) A+ (A Plus) grade shall not be awarded for percentage of marks less than 80% under any circumstance. Normally, there will not be more than 10% (rounded off to integer value) A+ grade in any Course Unit.

(iv) For award of C+ grade, the minimum percentage of marks shall not be less than 40% in the case of Post Graduate level programmes and 35% in Undergraduate level programmes.

(v) C grade shall be decided on a case-by-case basis keeping in view the consistency of performance, progressive improvement, exceptionally good performance in semester examination, regularity in attendance which may be upgraded to C+ or downgraded to F grade. (The provision of moderation of marks (up to maximum of 5 marks per semester *but not more than 3 marks in a course*) shall be permissible in borderline cases for upgrading "C" grade to "C+" Grade, for improvement of SGPA, CGPA and also the Division.)

(vi) The results, if considered necessary, shall be moderated by a duly constituted Results Moderation Committee.

(vii) The procedure for evaluation and award of grades for Project/Training/Seminar/Comprehensive viva-voce shall be such as may be decided by the respective Board of Studies.

(3) Conversion of numerical marks into letter grades

(a) In order to arrive at the letter grades based on relative grading, the total marks in a particular course for all the students in the class of more than 30 students shall be tabulated in a descending order list (equivalently a histogram). The performance of the class shall be analysed in terms of average, highest and the lowest marks and dividing lines between the clusters of students. Gaps and dips between the clusters and the nature of the clusters will guide in drawing the dividing lines between the Grades. B and B- bands usually indicate the average mark.

(b) If the marks obtained by a student of a class of more than 30 students are not close to normal distribution curve, the marks awarded to a student in a Course Unit shall be transformed into a normal distribution curve by using Statistical Method in accordance with **Table B** to ensure the uniformity in spread of scores regardless of the nature of curricular areas.

TABLE – B

Lower Range of Marks	Grade	Upper Range of Marks
	A+	$> \bar{x} + 1.5\,\sigma$
$\bar{x} + 1.0\,\sigma <$	A	$\leq \bar{x} + 1.5\,\sigma$
$\bar{x} + 0.5\,\sigma <$	A-	$\leq \bar{x} + 1.0\,\sigma$
$\bar{x} <$	B+	$\leq \bar{x} + 0.5\,\sigma$
$\bar{x} - 0.5\,\sigma <$	B	$\leq \bar{x}$
$\bar{x} - 1.0\,\sigma <$	B-	$\leq \bar{x} - 0.5\,\sigma$
$\bar{x} - 1.5\,\sigma <$	C+	$\leq \bar{x} - 1.0\,\sigma$
$\bar{x} - 2.0\,\sigma <$	C	$\leq \bar{x} - 1.5\,\sigma$
	F	$\leq \bar{x} - 2.0\,\sigma$

The mean ($\bar{x}$) and the standard deviation (σ) of marks obtained of all the students in a course shall be calculated and the grades shall be awarded to a student depending upon the marks and the mean and the standard deviation as per **table B.**

(c) In a class of students upto 30, the minimum cut off for various grades shall be assessed as given in **Table C**.

TABLE - C

Grade	Qualitative Value of Grade	Minimum Percentage of Marks for Letter	
		Grade for PG Programmes.	Grade for UG Programmes.
A+	*Outstanding*	80	80
A	*Excellent*	75	70
A-	*Very Good*	68	65
B+	*Good*	60	55
B	*Above Average*	52	50
B-	*Average*	45	45
C+	*Satisfactory*	40	35
C	*Border Line*	35	30
F	*Fail*	Less than 35	Less than 30

(d) In the case of non-credit and Audit Courses which are not reckoned for assessment of SGPA and CGPA, the students shall be awarded ―S‖ Grade for satisfactory performance and ―U‖ Grade for unsatisfactory performance.

(4) The Semester performance of a student will be indicated as ―Semester Grade Point Average (SGPA). The SGPA will be weighted average of Grade Points of all letter grades received by a student for all the Course units in the semester. The formula for Computing SGPA is given below:

$$SGPA = \frac{U1\ G1 + U2\ G2 + U3\ G3 + \text{----------}}{U1 + U2 + U3 + \text{----------}}$$

Where U1, U2, U3 denote credits associated with courses taken by the Student and G1, G2, G3 are the Grade Point of the letter grades awarded in the respective Course. An example of these calculations is given below:

I Semester

Course code	Associated Course Unit Credits	Grade Awarded	Credits Earned	Grade Point	Point Secured
(1)	(2)	(3)	(4)	(5)	(6)
MAL 101	5	C (+)	5	4	20

Total associated credits in the semester (total of column 2) = 24

Earned credits in the semester (total of column 4) = 16

Points secured in this semester (total of column 6) = 106

$$SGPA = \frac{\text{Points secured in the semester } 106}{\text{Credit Units in Courses appeared } 24} = 4.42$$

II Semester

Course code	Associated Course Unit Credits	Grade Awarded	Credits Earned	Grade Point	Point Secured

Associated Credit Units in the semester (total of column 2) = 31

Earned Units in the semester (total of column 4) = 23

Cumulative associated credit Units (in previous semesters 24 and current semester 31) = 55. Points Secured in II semester (total of column 6) = 180

Cumulative points secured (total of points secured in 1st semester 106 and in II semester 180) =286

$$SGPA = \frac{\text{Points secured in II semester } 180}{\text{Credit Units of appeared courses in II semester } 31} = 5.806$$

$$CGPA = \frac{\text{Cumulative points secured in all passed course in I \& II Sem } 286}{\text{Cumulative Associated Credit Units in I \& II semesters } 55} = 5.20$$

(5) In the case of Trimester or Annual system of evaluation of students performance, trimester grade point average (TGPA) or Annual Grade Point Average (AGPA) shall be assessed as per above guidelines.

(6) In final Grade Card will indicate Cumulative Grade Point Average (CGPA) which shall be calculated as in Para 14(4) and shall be based only on Grade Points obtained in courses for which units have been earned.

(7) Conversion from Grade Point Averages to percentages of marks do not have rigor or rationale. However, an approximate and indicative equivalence between CGPA and percentage of marks can be assessed by simple mathematical calculation i.e. CGPA multiplied by 10.

(8) The successful candidates shall be placed in Divisions as below:

CGPA	EQUIVALENT DIVISION
8.5 and above	First class with Distinction
6.5 but less than 8.5	First Division

GUIDELINES FOR
CURRICULUM DEVELOPMENT

G–01: GUIDELINES FOR CURRICULUM DEVELOPMENT

The University will have various institutions as its constituent units, which will offer different academic programmes from the session 2015-16. For any such programme to be offered, it is necessary that Academic Council approve the Programme Structure and curriculum and scheme of examinations before its commencement.

Curriculum and scheme of examinations is one of the most important components of academic excellence and its development and approval is a detailed exercise and involves many steps. Following are the steps to be followed for developing the curriculum for any programme (Annexure-I). It should be ensured that as the steps are completed, the details are properly recorded and forwarded to the University along with the curriculum duly recommended by the board of studies of an institution.

The curriculum and scheme of examinations should be prepared in the format as given in the sample enclosed (Annexure-II). Please ensure that the layout should be standard in terms of terminologies used, information given, font type and size to be used.

After all the steps are completed, the Head of the Institution should send the recommendations to the undersigned for further processing for approval along with the **final** programme structure and curriculum and scheme of examinations (both hard and soft copies). It is important to note **that no programme be allowed to commence before the Academic Council approves the curriculum and scheme of examinations.**

These guidelines have been issued with the approval of the Academic Council meeting vide Item No (AC) 1.5 Date 18-08-2015.

Annexure - I

STEPS-WISE GUIDELINES FOR DEVELOPING CURRICULUM

1. The Heads of Departments should develop the curriculum along-with faculty members. After brainstorming among them (if needed outside experts may be involved), the objective of the programme should be defined and documented. On this objective, would depend the programme structure.

2. The programme structure should include semester-wise courses (core and electives) to be taught, any internships to be undergone, project/dissertation-based courses etc. Each course should contain details of course code (refer to scheme of coding in Annexure-III)) classroom hours, practical/lab classes, tutorials, self-study hours and credit units. The broad guidelines as prescribed by AICTE/UGC etc. should be kept in mind.

   Normally in a semester of 15-16 weeks' duration, a total 5 – 6 hours of work per week (including classes, tutorials, labs, library, self study, project, term paper etc.) by the student is required to earn 1 credit unit. The credit units attached to each course should be defined in terms of contact hours i.e. Lectures (L), Tutorials (T) and Practicals (P) as given in the enclosed format on programme structure (Annexure-III). Towards earning credits in terms of contact hours, 1 lecture and 1 tutorial per week are rated as 1 credit each and 2 practical hours per week are rated as 1 credit. Thus for example, an L-T-P structure of 3-0-0 will have 3 credits, 3-1-0 will have 4 and 3-1-2 will have 5 credits. Students should also work in terms of library, self-study, work on project and/or term paper etc. that should be ensured by the faculty by giving appropriate assignments to students. Total contact hours per week should be about 30. In a full-time degree programme, a student should earn 25-30 credit units per semester. The credit units attached to Summer Internship/Training (8-10 weeks), fieldwork etc. could be included in this total or could also be in addition to this total. However, these are only broad guidelines and there could be some variation depending on the nature of a course. For more information, you could refer to the norms and standards of AICTE/UGC.

These guidelines have been issued with the approval of the Academic Council meeting vide Item No (AC) 1.5 Date 18-08-2015.

3. Keeping in mind the programme objectives, aims and objectives for each course should be decided and written down. This will define the contents in terms of depth and breadth of a course and the methodology to be followed for teaching the contents.

4. Detailed syllabus should be worked out (module-wise) by the HOD and faculty members through detailed research and benchmarking them with the courses offered at leading institutions and universities. The syllabus then should be discussed with experts from the concerned areas and representatives from client/user organizations.

5. The evaluation scheme for each course with weightage for each component should be given. A list of one or two textbooks and a detailed list of reference books and journals should be given. They should be written in a standard way, which is followed internationally. The distribution of marks over components of evaluation could be say, as follows*:

Component of evaluation	**Frequency**	**Code**	**Weightage (%)****
Case Discussion/Presentation/ Analysis	1 – 3	C	10-15

*A component not listed above may be included depending on the nature of a course.
** The components for continuous evaluation, in addition to the class test(s) and their weightage should be selected so as to have a combined weightage of 20 marks. Class test(s) will have 20 marks. Total number of components for continuous evaluation, including class test(s) should be 3-4.

6. After this, the curriculum should be evaluated by the board of studies (as per the constitution and as approved by the University) of the institution concerned should be reviewed in terms of programme objectives, programme structure, course objectives and curriculum with reference to points mentioned above. The programme structure and the curriculum and scheme of examination for each course should be sent to this office with its recommendations by the Head of the institution as per the deadlines mentioned.

7. Finally, the curriculum should be forwarded to the University. This will be put up to academic council of the University for its approval and after the approval it will be notified.

8. No changes are permitted in the courses, their nomenclature, scheduling (term or semester-wise), and objectives without there being sound reasons for doing so and without the prior approval from the university.

9. To facilitate consistency in evaluation and comparability of curriculum applicable to different batches of students, it is desirable not to review the curriculum of any course for three years except courses related to law, taxation etc. However, if it is felt during these three years that a course (with any credit weightage) needs to be added, it is possible with the approval of the University provided the new course has a new title and code number. Similarly, a course can be dropped with the approval of the University.

SCHEME OF CODING

Each course will be assigned a unique course code consisting of five letters and five digits and the interpretation will be as follows. The first letter identifies the degree or diploma i.e. 'D' for Doctoral Degree, 'M' for Master's Degree, 'B' for Bachelor's Degree, 'H' for M. Phil. Degree, 'P' for a Post Graduate Diploma, 'G' for a Graduate Diploma/Diploma, 'A' for Advance Diploma and "I" for an Integrated Degree Programme. The second and third letters identify the name of the broad stream of the programme of study and the fourth and fifth letters identify the subject area. The first three letters have been given in the list of contents along with the programme name and the two-digit subject area codes have been given in the list of subject areas. The five digits have an interpretation wherein the first digit indicates the year of the programme, 2nd & 3rd digits indicate the semester (for programme with annual system, these are '00') whereas 4th & 5th digits indicate the course number. Practical courses have been given a code by adding 20 to the code of the corresponding papers, for term papers last two digits would be 30, for Viva-voce they will be 40 and for summer training the last digits of the code are 50 onwards and for

R-14: REGULATIONS ON CURRICULUM DESIGN & DEVELOPMENT

[As per Sec 8 of the Amity University Act 2014]

A) Definitions/ Descriptions:

In framing a suitable curriculum for a programme, the following definitions/descriptions must be followed. This is expected to help in maintaining uniformity of preparing the final programme structure, curriculum, scheme of instructions and assessment scheme for Programmes offered by various institutions and Student Learning Outcomes.

1. **Academic Programme**: A programme with prescribed nomenclature, duration, credit Units and programme structure and curriculum e.g., B.A, B. Tech, M.A, M. Sc etc.

2. **Programme Structure (PS)**: Scheme of courses with credit units arranged semester-wise in an academic programme

3. **Programme Educational Objectives (PEOs)**: over all objectives to be achieved on completion of an academic programme.

4. **Course Title**: name of the course in a programme structure with well defined credit units and course code.

5. **Course Code**: Alphanumeric code assigned to each course in programme structure

6. **Teaching Mode**: Mode of delivery of a course for effective course delivery. It can be in lecture (L), tutorial (T) and Laboratory / Practical (P) / Studio mode.

7. **Course Objectives**: Course objective is a simple statement of what to expect the students to know after completion of a course.

8. **Programme Learning Objectives (PLOs):**Programme Learning Objectives describes the measurable knowledge, skills, abilities, or behaviors that students

to be able to demonstrate by the time they complete their degree.

9. **Student Learning Outcomes (SLOs)**: Student learning outcomes describe the **knowledge, skills, and attitudes** that students are expected to achieve by the end of an academic program. In other words, outcomes to be gained by students on completion of a programmes / courses through teaching learning mode and assessment scheme.

10. **Outcome Assessment Plan**: The plan providing details of all methods of assessing Student Learning Outcome in the programme to gauge the extent of the learning that is taking place (format attached).

11. **Competencies & Skills:** the competencies and skills which will be developed on completion of the programmes which will make the graduand employable with good organisation at better profile and package. The Competencies and skills must include both- general as professional.

12. **Pedagogy /Teaching / Learning techniques:** the mode of teaching a particular course for effective course delivery and student Learning Outcomes. Some of the pedagogical techniques may include, lecture, practical, case study, field work, tutorial etc.

13. **Employability of Graduands:** embedding set of attributes in the curriculum and imparting knowledge to develop desired skills & competencies and equip students to compete in the global marketplace

14. **Semester Scheme:** Eachprogramme must be offered in semester system, the year being divided into two Semesters, each for course work, followed by Continuous Assessment (CA)/ Internal Assessment (IA) in the Semester & End Semester Examination (ESE).

15. **Credit System:**A system enabling quantification of course work, with one credit being assigned to each unit after a student completes its teaching-learning process, and assessment (both CA/IA & ESE). Further, Choice Based Credit System(CBCS) to be helpful in customizing the course work for a student, through Core & Electives (both professional and open electives).

16. **Credit Courses:** All Courses registered by a student in a Semester to earn credits. In a widely accepted definition, students to earn One Credit by registering and passing:

    - One hour/week/Semester for Theory/Lecture (L) Courses; or Tutorials (T),
    - Two hours/week/Semester for Laboratory/Practical(P) Courses; and
    - Five-six hrs/week/semester for field work courses.

NOTE: Other student activities not demanding intellectual work or enabling proper assessment like study tour, Club-Committee activities and guest lectures not to carry Credits;

17. **Credit Representation:** Credit values for different academic activities to be represented by following the well accepted practice, as per the example in Table below:

Credit Representation

Lectures (hrs/wk/Sem.)	Tutorials (hrs/wk/Sem.)	Practical Work (hrs/wk/Sem.)	Credits (L: T: P)	Total Credits
3	0	0	3:0:0	3
2	2	0	2:2:0	4
2	0	2	2:0:1	3
2	2	2	2:2:1	5
0	0	6	0:0:3	3

One Credit Unit will be equivalent to 10-12 hrs of Classroom Teaching (L-T) and 20-24 hrs of Lab practical's and 50-60 hrs of field work/industry work.

18. **Course Load:** Every student to register for a set of Courses in each Semester, with the total number of their Credits being limited by considering the permissible weekly contact hours: 30/Week

    This is meant to enable the students to engage in home assignments, self-learning outside the Class rooms/Laboratories, Extra/Co-Curricular activities and add-on Courses, if any, for their overall development. UGC guidelines prescribe:

a. The total periods provided for contact teaching shall not be less than 30 hours a week.

b. The time provided for practical, fieldwork, Library, utilization of computer and such other facilities shall not be less than 10 hours a week

19. **Audit Courses:** Students shall be able to register for Courses outside the prescribed range of Credits for audit only, when interested to supplement their knowledge/skills; Optional for students to appear/pass in CA/IA, ESE of these courses and/or seek their inclusion in the Grade cards or Transcripts issued (but, not for earning Credit);

20. **NTCC (Non Teaching Credit Courses)** – Non Teaching Credit Courses are self exploratory for professional development of students as well as to allow them to pursue their interest. It includes Summer Training, Dissertation, Term Paper, Field work, Seminar and/or Minor Project etc. These courses are conducted as per the University Regulations/Guidelines.

21. **Course Registration:** Every student to formally re-register for programme and prescribed Courses (Credits)under **HoD/PL/PC** advice in each Semester for the Institution to maintain proper record; Helpful for monitoring the CA/IA, ESE performance in each case and to assist the students in self-paced learning by dropping/withdrawing from Course(s) and add new programmes to avail of Course Flexibility for CBCS with prior approval of HoD/HoI.

22. **Assessment:** Assessment is the process of gathering and discussing information from multiple and diverse sources in order to develop a deep understanding of what students know, understand, and can do with their knowledge as a result of their educational experiences; the process culminates when assessment results are used to improve subsequent learning.

23. **Course Evaluation:** CA/IA and ESE to constitute the major evaluations prescribedforeach Course, with only those students maintaining a minimum standard inCA (fixed by the institution) being permitted to appear in ESE of the Course; IA and ESE to carry 30% and 70% respectively, to enable each Course to

be evaluated for 100 marks, irrespective of its Credits;

24. **Continuous Assessment/Internal Assessment:** To be normally conducted by the Course faculty and include mid-term/weekly/ fortnightly class tests, home assignment, problem solving, group discussion, quiz, mini-project & seminar etc. throughout the Semester, with weightage for the different components being fixed at the institutional level; Faculty also to discuss on CA/IA performance with students;

25. **End Semester Examination:** To be normally conducted at the institutional level as per the University Examination Regulations and guidelines. For this purpose, Syllabi to be modularized and ESE questions to be set from each module, with choice if any, to be confined to module concerned only. The questions to be comprehensive emphasizing analysis, synthesis, design, problems & numerical quantities;

26. **Grading:** To be normally done using Letter Grades as qualitative measure of achievement in each Course, as described in student handbook and examination Regulations, based on the marks(%) scored in (CA/IA+ESE) of the Course and conversion to Grade done by Relative Grading.

27. **Grade Point (GP):** Students to earn GP for a Course based on its Letter Grade; e.g., on a typical 10-point scale, GP to be: A^+=10, A=09, A-=08,B^+=07,B=06,B-=5, C^+=04 & F=00; Useful to assess students achievement quantitatively & to compute Credit Points(CrP)= GP X Credits for the Course; Student shall pass a Course only when they get C^+ Grade. Minimum passing marks in a course shall be 40%for PG programmes and 35% for UG programmes;

28. **Grade Point Average (GPA):** Computation of Semester GPA (SGPA)to be done by dividing the sum of CrP of all Courses by the total number of Cr registered in a Semester, leading finally to CGPA for evaluating student's performance at the end of two or more Semesters cumulatively; This reform serving as a better performance index than total marks or percentage.

These regulations have been issued with the approval of the Academic Council meeting vide Item No (AC) 6.3 Date 12-02-2018.

29. **Passing Standards:** Both SGPA & CGPA serving as useful performance measures in the Semester System; Student to be declared successful at the Semester-end or Programme-end only when getting

- At Master's Level - SGPA ≥ 5 and CGPA ≥ 6.00, with none of the Courses fail registered in a Semester for the Degree Award.
- At Bachelor's level - SGPA ≥ 4.5 and CGPA ≥ 5.00, with none of the Courses registered in a Semester for the Degree Award.

30. **Credits Required for Degree Award:** Number of Credits to be earned by a student for the Award of Degree programme in Science fixed by Institutions and approved by Academic council is

- At Master's level - normally in the range of 100 – 104 credits i.e. 25-26 credits per Semester including Value Addition Courses (VAC)
- At Bachelor's level - normally in the range of 140 – 144 credits i.e. 23-24 credits per Semester including Value Addition Courses (VAC)

Passing in Audit Courses is desirable, though will not be counted towards award of degree.

B) Programme Structure and Course Curriculum Development

The institutions of AUK offering academic programmes must get their programme structure and curriculum and scheme of examination approved by academic council before its commencement. All academic programmes at AUK must:

- To ensure a broad base of curricula while developing relevant, challenging and well taught programmes that engage with theory and practice and with teaching supported by research.

The **Programme Review & Outcome Assessment Committee (PROAC)** will review, develop the detailed programme structure and curriculum after due deliberation with HoI and nominated Sr. Faculty of relevant programmes of other campuses of the University.

i) Based on inputs from various stakeholders, PROAC will define the Programme

Structure, programme Educational objectives (PEOs), PLOs. POOs and its Linkages with the Strategic Goals of the University Mission.

ii) The **Programme Review and Outcome Assessment Committee (PROAC)** will define the following as per the Model Curriculum Framework for Programme Structure:

- Programme Mission
- Programme Description
- Programme Educational Objectives/Goals (PEOs)
- Semester-wise Course Plan as per prescribed programme model Framework

- Programme Operational Objective(POOs)
- Matrix Of PEO`s and PLO`s
- Curriculum Coherence – Mapping of Courses with PEOs/PLOs
- Competencies & Role Marketing as per industry requirements.
- Employability of Graduands(Specify Industry/Sector & Level):
- Education Outcome Assessment Plan (Direct & Indirect Assessment Methods).
- Programme Operational Outcomes Matrix
- Name of Relevant Statutory/Accrediting Body/Bodies other than UGC, if any
- Resource Planning
- MoU with Any Industry at Programme Level/Skill based/Course based

Evidence, Analysis, Feedbacks of Stakeholder etc. Minutes of the Meeting must be maintained in prescribed formats submitted to the Academics Office at University Head Quarters and uploaded on Amizone.

7. The Student Learning Outcomes at programme as well as course level must be developed as per the **Guidelines on developing and measuring Student Learning Outcomes.**

8. While designing the curriculum of any Programme feedback from the industry experts is taken so that on completion of the programme the students are industry ready and develop a broad set of skills that are relevant to all professions. The curriculum is designed in such a manner that students get sufficient exposure and hands on training through projects, seminars conferences, conventions, industrial tours before they go for their training &industry related projects & finally when they become eligible for final placements. Immense focus is given to practical implication of their learning.

9. PRC must also benchmark the programme with programmes of other universities

as per the **Guidelines for programme and Course Benchmarking**.

10. Courses in Communication Skills, Personality Development and Behavioural Science that help in preparing students for the professional world to be included as **Value added Courses** (VAC) in all the programmes of the University.

11. The programme structure should include semester-wise courses (core/professional core, electives/professional electives, audit, mandatory, open electives, basket courses) to be taught, any internships to be undergone,

    project/dissertation-based courses etc. Each course should contain details of course code, classroom hours, practical/studio/lab classes, tutorials, self-study hours and credit units. The broad guidelines as prescribed by AICTE/UGC etc. should be kept in mind.

12. Normally in a semester of 16-18 weeks' duration, a total 5 – 6 hours of work per week (including classes, tutorials, labs, library, self study, project, term paper etc.) by the student is required to earn the credit unit. The credit units attached to each course should be defined in terms of contact hours i.e. Lectures (L), Tutorials (T), and Practicals (P) as given in the enclosed format on programme structure (CD-02). Towards earning credits in terms of contact hours, 1 lecture/1 tutorial per week are rated as 1 credit each and 2 practical hours per week are rated as 1 credit. Thus for example, an L-T-P structure of 3-0-0 will have 3 credits, 3-1-0 will have 4 and 3-1-2 will have 5 credits. In total 1 Credit Unit is equivalentto following in a semester:-

    10-12 hours of L/T and 22-24 hours of P/L. Students should also work in terms of library, self-study, work on project and/or term paper etc. that should be ensured by the faculty by giving appropriate assignments to students. Total contact hours per week should be about 30. In a full-time degree programme, a student should earn 20-25 (UG) & 25-30 (PG) credit units per semester. The credit units attached to Summer Internship/Training (8-10 weeks), fieldwork etc. could be included in this total or could also be in addition to this total. However, these are only broad guidelines and there could be some variation depending on the nature of a course. For more information, HOI may refer to the norms and standards of UGC and other relevant statutory bodies like AICTE, BCI, PCI, CoA etc. & Regulations of NTCC - AUK.

13. Keeping in mind the Programme Educational Objectives (PEOs) &Programme Learning Outcomes (PLO), aims and objectives and SLOs for each course should be decided and written down. This will define the contents in terms of depth and breadth of a course and the methodology to be followed for teaching the contents

and assessing the SLO.

14. Detailed syllabus for a course should be worked out (module-wise) by the CRC consisting of HOD/Area Head/Stream Coordinator and Course faculty members through detailed research and benchmarking them with the courses offered at leading institutions and universities. The syllabus then should be discussed with experts from the concerned areas and representatives from Academia/Research/Industry organizations.

(C) Outcome Assessment and Course Evaluation

15. Three types of assessment are done of academic delivery, each with a very different focus:

- Institutional assessment
- Curricular and programme effectiveness assessment
- Course and learner-centered assessments

In these guidelines only focus will be Course and learner-centered. The Institutional Assessment and Curriculum and programme assessment will done separately

Direct and Indirect Assessment:

Direct assessments of student learning are those that provide for direct examination or observation of student knowledge or skills against measurable performance indicators.

Indirect assessments are those that ascertain the opinion or self-report of the extent or value of learning experiences.

16. The evaluation scheme for each course with weightage for each component should be given. A list of one or two textbooks and a detailed list of reference

books and journals should be given. They should be written in a standard way, which is followed internationally.

The distribution of marks over components of evaluation could be say, as follows*:

Component of evaluation	Frequency	Code	Weightage (%)**
Case Discussion/Presentation / Analysis	1 – 3	C	10-15
Home Assignment	1 – 3	H	5-10
Project	1	P	10-15
Seminar	1 – 2	S	5-10
Viva	1 – 2	V	5-10
Quiz	1 – 3	Q	5-10
Class Test (s)	1 – 2	CT	10-15
Term Paper	1	TP	10-15
End - Semester Examination	1	EE	70
