“STOP INNER CONTRADICTIONS AND CONFLICT”

Be clear about your thoughts and goals. Times are changing and requirements are plenty. Irrespective of insinuating role of rising competitive work life and transformed social life, the secret to a fulfilled achievement can be derived when state is 'mindful', and which leads to conscious deliberations. With rising expectations and surmounting challenges attaining clarity, purpose and outcome of every decision must be realized. Since 'management' is a purposive outcome and outward looking proactive and strategic process, it is important to that as sustainable organizations with a futuristic looking perspective, being mindful helps in maintaining psychological wellbeing for being healthy and contented.

FROM THE EDITORIAL DESK

Dear Readers,

“FINANCE IS AN INTEGRAL PART OF OUR LIVES.”

With an educative purpose, we are coming forth with our monthly financial newsletter “MUDRA” to help our readers regarding insights to specific news and facts about the financial world. ‘MUDRA’ serves as a gist of the news happening in the financial ecosphere. It indeed gives me pleasure to share that the newsletter is designed and compiled by the students. My special accolades go to all those who have worked behind this. I hope you enjoy going through the newsletter and we look forward to receiving your opinions and suggestions.

HAPPY LEARNING!

GUESS THE WORD :

1. It measures a security's sensitivity to movements by the market.
2. It is current monetary assets that can be used.
3. The first time a company's stock is offered for sale on a stock market or to the general public.
4. It is the amount of money returned to an investor as a proportion of the amount invested in an enterprise.
5. This term refers to a company that sells its products or services to another company.
6. It is the presentation made to persuade an investor to invest in the proposal.
7. It refers to the process of using only existing resources, such as personal savings, personal computing equipment, and garage space, to start and grow a company.
8. They are wealthy private investors focused on financing small business ventures in exchange for equity.

FINANCIAL FACTS

- Private Equity firms often take a majority stake i.e. 50% ownership or more when they invest in companies where as Venture Capital firms take typically 25-45%.
- In 2022, venture capitalists invested \$452.3 billion across approximately 16,000 deals ,which marked a \$260.9 billion, or 36.6%, pullback from the record-setting \$713.0 billion invested in 2021.
- The investment size in private equity is a minimum of 100 million dollars and a maximum of 10 billion dollars. The investment size in venture capital is lesser than 10 million dollars.
- VC investment in the country startups suffered a massive year-on-year 38.2 % decline in value terms during 2022.
- Private equity investors look for well-established businesses. These investors often look for businesses that are struggling due to ineffective leadership or poor processes. VC investors look for companies with very high growth potential and as a result, are willing to take on more risk.

FINANCIAL TERMS

- CCPPO shares (Cumulative, Convertible, Participating, Preferred-dividend Ordinary) are an uncommon class of equity shares. They have a number of features, such as participation, cumulative dividends, the ability to be converted into common shares, and a preferred dividend feature.
- Total value to paid-in (TVPI) - The Total value to paid-in (TVPI) multiple or the investment multiple is obtained by dividing the investment's cumulative distributions and residual value by the paid-in capital.
- Hurdle rate - The minimum return that limited partners must achieve before the general partner can get carried interest is the hurdle rate, sometimes the preferred return.
- Letter of intent - A letter of intent (LOI) is a document declaring the preliminary interest of one party to do business with another.
- Burn Rate - This is the amount of money your business spends each month, usually in dollars.
