## SKILLS

I have tremendous leadership and execution skills that enable me to manage people in integrated projects. I understand what it takes to deliver and can help people perform to their best ability. I have a well-developed capacity to communicate with different cultures and to establish partnerships for education development. This has helped me write up more than 30 international collaboration proposals of which more than 20 were funded by national and international bodies.

### Skill Areas:

Higher Education  
Program Development  
Teaching  
Student Affairs  
Grant Writing  
Community Outreach  
Curriculum Development  
Public Speaking  
Student Development  
University Teaching

---

### • Specific experience in the work field:

- Faculty planning and project writing for two Major Projects in the Faculty and other Department activity projects
