

PLACEMENT BROCHURE

Master Of Hospital Administration
Batch-2019-2020

AMITY
UNIVERSITY

Amity Institute of Hospital Administration

EXCELLENCE....In the world of Healthcare Management

AMITY UNIVERSITY

At Amity we are passionate about grooming tomorrow's leaders who are not only thorough professionals but also good human beings with values and ethics.

Government Recognized

The Amity University has been established by an act of State Legislature and recognized by University Grants Commission (UGC) through the Act of State Legislature.

The Amity University logo is represented in a shield divided into dark blue and golden yellow sections by an upward sweeping line that depicts growth and progress in life, achievable through education. While the shield shape represents the resolute shelter of truth, two contrasting yet adjacent colors connote a blend of modernity with tradition. The dark blue with contemporary cues of technology, performance and advancement strikes a synergy with the golden yellow radiance of tradition, culture and values. The flame represents the purity and passion for knowledge, while the upper and lower parts of the flame replicate the arch of 'A' and the bend of 'U' respectively, the two leading alphabets of Amity University.

MESSAGE FROM THE FOUNDER PRESIDENT

Dr. Ashok K. Chauhan

I am delighted to see that with the motivation, guidance and help provided to the students by the dedicated faculty AIHA, Noida; they are equipped with the academic excellence, coupled with the values, ethics, traits and perfection in behavioral science which enables them to become a successful professional with the fullest commitment to serve their company, by which they start. I am sure, this recruitment brochure would help the corporate leaders in knowing the tremendous potential our students possesses to take up any challenges in the corporate sector and their capability to meet fully the expectations of their employers. I congratulate Dr. Chandra Rosha and wish all the success to the students of MHA 2015-2017 batch.

Dr. Ashok K. Chauhan

Founder President, Ritnand Balved Education Foundation (RBEF)

The Foundation of Amity Institutions and the sponsoring body of Amity Universities

PROGRAM OUTCOMES

The Master of Hospital Administration(MHA) program aims to develop a cadre of professional managers in the hospital and healthcare sector. The program provides training to the students for analyzing the responsibility and operations of a healthcare organization, to identify and resolve problems and improve performance. The program also exhibits training in ability to summarize the opportunities and challenges presented in the health care industry.

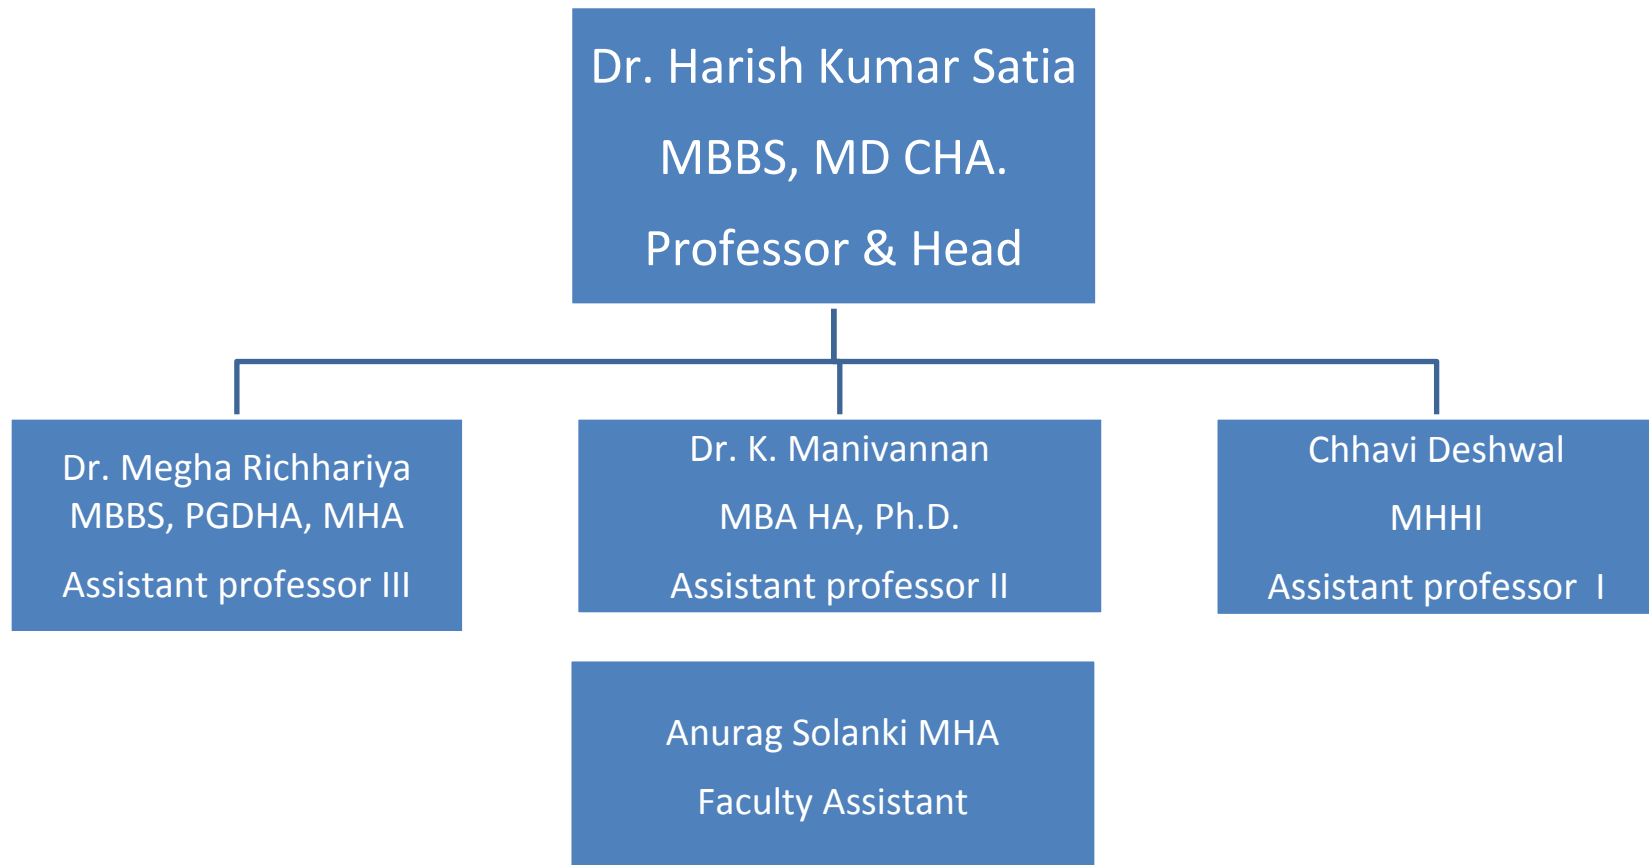

The MHA degree program helps in applying knowledge and understanding of healthcare administration in the areas of hospitals and health care planning and operations.

Students are able to define, summarize concepts in Healthcare Management with an inter-disciplinary focus in the fields of Management, Health Economics, Medico-Legal regulations , Human Resource management, Health Insurance and specialized Hospital Planning and Operations in a dynamic healthcare environment.

To Demonstrate critical thinking and effective decision making regarding healthcare planning & operations through financial management, strategic planning, economic analysis, and quality assessment and improvement.

MHA – MASTER OF HOSPITAL ADMINISTRATION

The two year full-time MHA programme in Hospital Administration and BBA Health Care management aims at adopting a professional blend of academic and practical applications in the field of Healthcare. Specially trained cadre of professional managers for hospitals is what Amity Institute of Hospital Administration has in this batch of MHA & BBA HM.

HOSPITALS

Students learn to manage all realms of functioning of the Hospital - Administration, Operations, Finance, Marketing, HR, TQM, Business Development, Insurance, IT, Business Analysis, Public Relations and Medical Tourism.

PHARMACEUTICALS

Students are trained in all managerial aspects and prove their mettle in Brand Management, Product Management, Supply Chain Management, IPR, Drug Regulations and Sales.

HEALTHCARE IT

Students have necessary skills in understanding the Healthcare domain and assist in designing and marketing software; thus making HIS efficient in improving quality, safety and accessibility of Healthcare.

INSURANCE

Learnings in Health Insurance equips students to be industry ready to cater to the needs of the customers and help the industry in Product Development, Underwriting, Marketing and Sales, as they understand the legal and medical aspects.

MEDICAL EQUIPMENT

Product Requirement Analysis, Marketing, Equipment Planning, Financial Analysis, Installation Management are the key skills of our students with specialization in Hospital and Healthcare Management.

PUBLIC HEALTH

Students know the importance of Epidemiology, Community Health, National Healthcare Policies and Biostatistics. This helps them in formulating policies and management of skills vital to effective functioning and cost effective quality care.

CONSULTANCY

Special focus on analyzing and developing leadership skills and strategic plans for revenue enhancement enables the students to become consultants to HCOs in planning, designing, assessing and implementing projects successfully.

NGOs

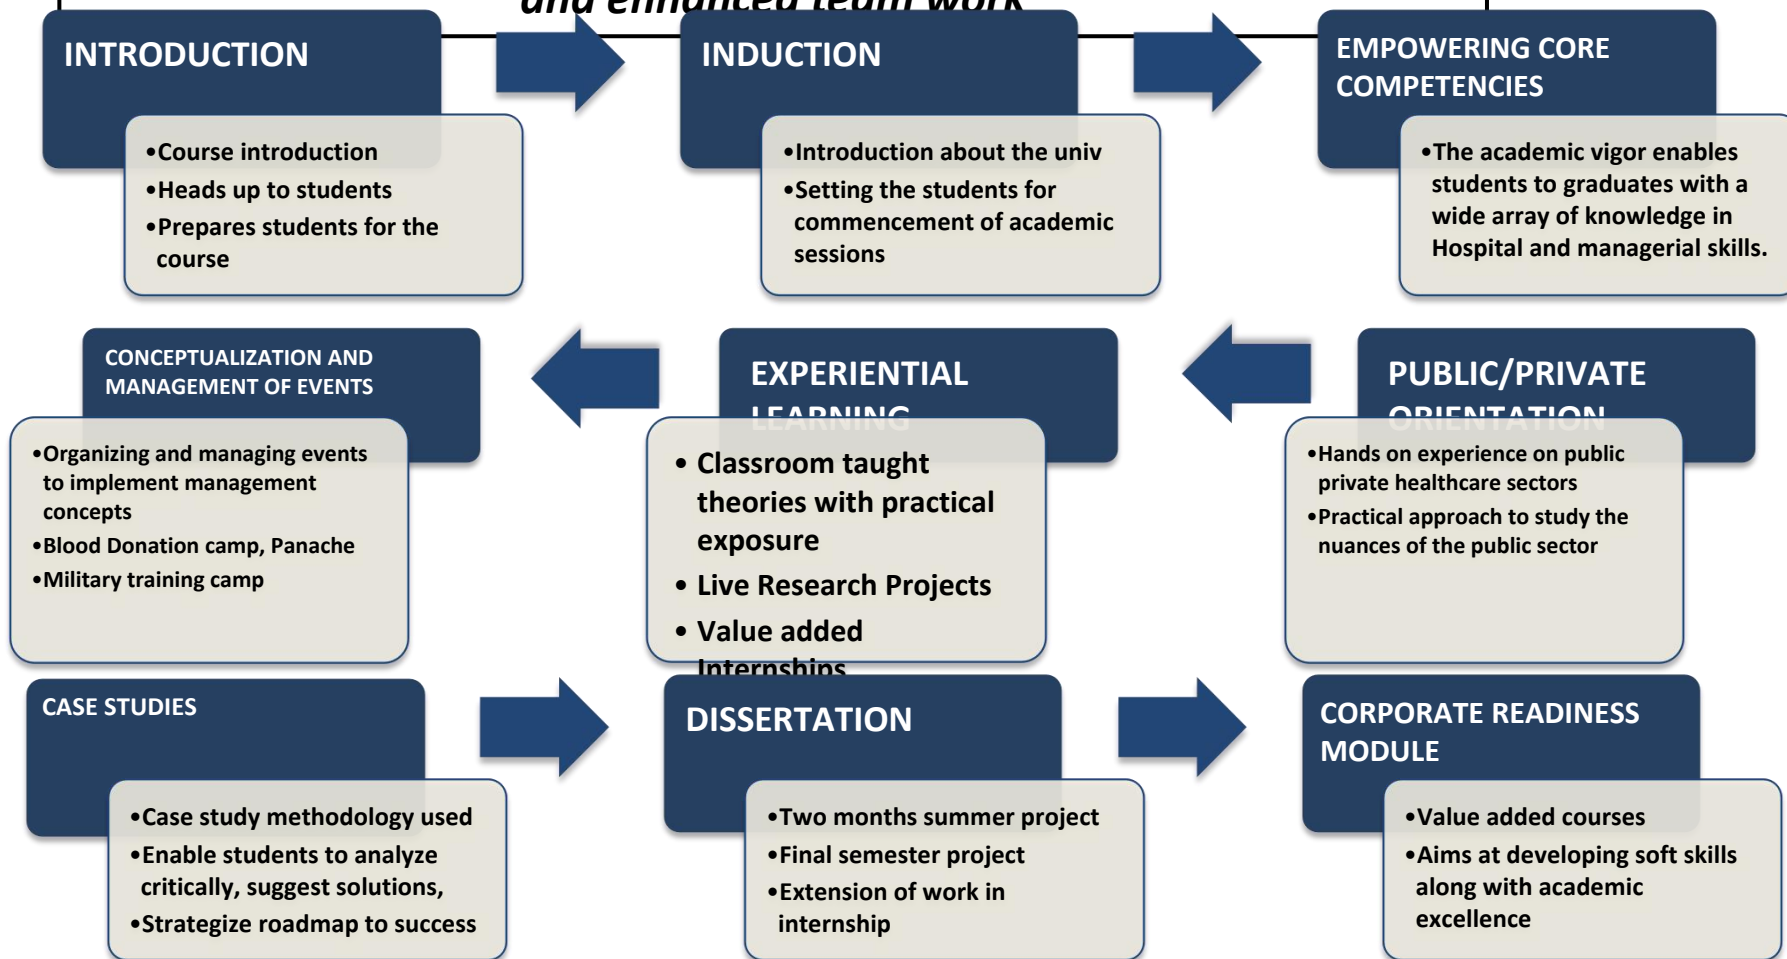

NGOs offer a National and International platform to our students for using their overall managerial skills which strengthens the organization in accomplishments of its goals, balancing cost and quality with a social cause.

MEDICAL TOURISM

NGOs offer a National and International platform to our students for using their overall managerial skills which strengthens the organization in accomplishments of its goals, balancing cost and quality with a social cause.
