Theme of the Special Session:

Theme of the Special Session

Aim of this special session is to provide international exposure for presenting and publishing of the research work in the area of modeling, optimization, deep learning, machine learning, soft computing and related topics.

The objectives of this session can be illustrated as:

1. To provide an international platform to researchers and scholars to present their work.
2. To publish the research papers in the international proceeding and journals
3. To interact with scholars in the above area for re-enforcing personal skills and knowledge at a global level.
4. To explore the future research opportunities and open problems.

Topics of Interest: We invite original (unpublished) research contributions based on the above mentioned theme including following topics **but not limited to:**

- Artificial Intelligence
- Machine Learning
- Soft Computing
- Deep Learning
- Neural Network
- Information Technology
- Computer Science & Engg.
- Social Media Analytics
- Other related topics

Important Dates

Last date for receiving full paper	15/02/2024
Email notification of paper acceptance	20/02/2024
Last date for receiving camera-ready paper	25/02/2024
