## Call for Papers

### Issue on Communication in Digital Culture

---

Amity Communication Review (ISSN: 2395-101X) a bi-annual double-blind refereed journal is pleased to announce a Communication in Digital Culture issue for the July-Dec 2024 issue.

We invite scholars worldwide to submit original research papers employing quantitative or qualitative methods with a social science perspective. We particularly welcome studies that produce new knowledge on the multifaceted challenges and opportunities digital culture presents. Unique case studies that contribute significantly to our understanding of this evolving field are also encouraged.

**Potential topics include, but are not limited to:**

- ❖ Digital platforms and health communication
- ❖ Artificial intelligence and its impact on communication
- ❖ The role of social media in digital culture
- ❖ Digital art, design, and communication practices
- ❖ Gaming culture and its social implications
- ❖ Cybersecurity considerations in a digital world
- ❖ Digital education and its transformative potential
- ❖ The evolving landscape of digital cinema
- ❖ The influence of digital technology on communication
- ❖ The rise and impact of digital media
- ❖ Virtual and Augmented Reality: Communication Applications and Challenges
- ❖ Bridging the digital divide: Strategies for equitable access
- ❖ The concept of social currency in the digital sphere
- ❖ Communication and social dynamics within digital societies
- ❖ Balancing digital privacy with the needs of a connected world
- ❖ The power of digital activism in social change movements
- ❖ The communication landscape of digital banking
- ❖ e-commerce and its impact on communication practices
- ❖ e-payment systems and their role in digital communication
- ❖ The rise and potential of emerging media technologies
