

AMITY UNIVERSITY

UTTAR PRADESH

University is dedicated to advancing sustainability literacy among students, understanding it as essential for future leaders. To measure this literacy, we employ a range of assessments, surveys, and project-based evaluations that gauge students' understanding of sustainability concepts, challenges, and solutions. Through targeted coursework, workshops, and interactive modules, we evaluate students' awareness of key areas such as climate change, resource conservation, social equity, and environmental ethics. University incorporate experiential learning, such as community projects and sustainability simulations, which provide hands-on opportunities to apply theoretical knowledge to real-world issues.

By analyzing these data points, university ensures that programs are fostering a deep, actionable understanding of sustainability. Our commitment to measuring and enhancing sustainability literacy empowers students with the knowledge and skills to contribute meaningfully to a more sustainable world."
