

AMITY UNIVERSITY

UTTAR PRADESH

Physical and Mental Health & Well-being Services at Amity University

Amity University is deeply committed to the holistic development and well-being of its students, faculty, and staff. In line with this vision, the university has established comprehensive facilities that cater to both physical and mental health needs on campus.

The campus is equipped with round-the-clock clinical services, including ambulance support and partnerships with reputed nearby hospitals to ensure immediate and quality healthcare during emergencies. In addition, free physiotherapy services and regular health check-up camps are organized in collaboration with renowned medical institutions to foster awareness and preventive care.

To support mental health, the Amity Centre for Guidance & Counselling (ACGC) offers 24x7 expert psychological support, ensuring students have access to professional counselling whenever needed. The establishment of a dedicated Happiness Centre further enriches emotional wellness through engaging programs and activities designed to promote a positive mindset.

Physical well-being is also emphasized through the presence of a Yoga Centre that provides a peaceful environment for holistic health practices. Complementing this is a state-of-the-art sports and gym facility, encouraging students to actively participate in a wide array of sports and recreational activities.

Through these thoughtfully designed initiatives and facilities, Amity University fosters a vibrant, healthy, and supportive campus environment where students can thrive academically, physically, and emotionally.
