Learning Management System (LMS)

Counselling Process

Mode of Counselling :- Synchronous learner engagement techniques

Brief describe the provision in LMS to be used by HEI :-

Amity University Haryana has implemented an In-House State-of-the-Art Learning Management System portal. Following are the key features of LMS (Learning Management System) that facilitate the synchronous teaching- learning: i. Virtual Classrooms: These classrooms are conducted over the LMS, where live sharing of desktop screen, presentations, documents, whiteboards etc. are facilitated between the faculty and learners in real time. It is further supplemented with two-way audio communication channel for the emotional connect of learners and teacher, while the real-time chat feature allows learners with low band width of internet to participate in the session. These classrooms are referred to as "Live Interactive Sessions" and students are also given the opportunity to present themselves in front of the participants. ii. Discussion Forums: The case study/topic-based discussion forums are moderated by the faculty in both synchronous and asynchronous mode. The faculty are available for live interaction with the students, five days a week, as per the notified schedule. This feature gives an extra edge for engaging students on a daily basis and thereby ensures that the practical approach of the learned topics is grasped by the learners through Case Studies/ topics/ articles. iii. One-on-One student to Faculty interaction (Ask Your Professor): "Ask Your Professor" is a 24 X 7 active interaction feature of the LMS, which can also be accessed through Mobile App, anywhere and anytime. The faculty responds in real time, depending upon their availability and hence encourage better inferences and conceptual clarity of the topics. Also, the above features are enhanced by the auto alert system and notifications.

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :- <https://amityggn.amigolms.com/>

Assessment mechanism	At Amity Directorate of Online Education, Amity University Haryana, assessments are developed pedagogically with a strategic approach to meet the learning outcomes and are delivered online through the LMS. The Continuous Assessment Model of formative nature is distributed evenly throughout the syllabus in five categories: i. Objective-type questions embedded in Each Module of the course. ii. Case study-based questionnaires at the end of each course. iii. Peer assessments with self and anonymous feedback iv. Live Interactive Session for each Module v. Discussion Forums. These assessments finally contribute towards the internal marks while evaluating and measuring the learning progress, skill acquisition, and achievement of learning outcomes of the learners.
Identified technological interface and interoperability	Amity University Haryana leverages a comprehensive and tightly integrated digital infrastructure to support its online education ecosystem. The University Management System (UMS) facilitates end-to-end student lifecycle management—from enrolment to graduation—ensuring efficient academic and administrative processes. The Learning Management System (LMS) serves as a robust platform for delivering a holistic online learning experience. It encompasses key functionalities such as content delivery, assignment submissions, assessments, and performance tracking. The LMS is seamlessly integrated with various institutional applications to enhance academic delivery and operational efficiency. Key features of the LMS include: <ul style="list-style-type: none"> • Comprehensive Administration Tools: Modules for managing both faculty and student activities. • Course Management: Support for e-learning programs, training content, and online events. • Communication Tools: An internal communication system, including a built-in mailing platform, to facilitate interaction. • Advanced Analytics: Built-in tools for tracking learner engagement and generating performance reports. • Accessibility: Features designed to support students with disabilities, promoting inclusive learning. • Collaboration Tools: Discussion forums enabling student-faculty interaction. • Evaluation and Feedback: Integrated rubrics and a speed-grader module for transparent assessment and timely feedback. • Academic Records: Display of scores and transcripts within the platform. • Interoperability: API and LTI integrations allow seamless connectivity with third-party applications. • Portability and Standards Compliance: Ensures consistency and adaptability across devices and platforms. Additionally, a Lead Management System is integrated into the digital ecosystem to support lead nurturing and conversion processes, strengthening admissions outreach. The platform is also complemented by a feature-rich mobile application available on both iOS and Android, enabling students and faculty to access learning resources and tools on the go. Amity University Haryana's digital infrastructure exemplifies a scalable, secure, and interoperable model, enabling the delivery of a high-quality, flexible, and learner-centric online education experience.
Learner's Authentication Requirements	Learner's Authentication Requirements at Amity Online As part of its commitment to maintaining a secure and credible online learning environment, Amity Online follows a robust learner authentication process. During the registration process on the Online Registration Platform, each student is required to submit a valid Government-issued photo identification for verification. Indian nationals must provide one of the following: Aadhaar Card, Driving License, or PAN Card. For students of foreign nationality or Non-Resident Indians (NRIs), a valid Passport copy is mandatory. Upon submission, the documents are thoroughly verified by the Admissions Department to authenticate the identity of the applicant. Once verified and enrolled, each student is issued a unique enrolment number and an official Amity email ID. Following enrolment, all students gain access to a Single Sign-On (SSO) enabled Student Portal, which serves as a centralized gateway to all digital tools, learning resources, communication platforms, and assessment systems to which they are entitled. This structured authentication framework ensures secure access, protects learner identity, and upholds the academic integrity of the online learning environment at Amity.
Learner Registration - through a web application	Learner Registration – Through a Web-Based Application Amity University Online facilitates a seamless and structured learner registration process through a dedicated web-based application, designed to ensure accuracy, eligibility verification, and ease of access. The registration process is divided into the following three key steps: <ol style="list-style-type: none"> 1. Submission of Basic Information Students are required to provide essential personal details, including permanent address, contact information, and upload a valid Government-issued identity proof for initial verification. 2. Academic Qualification and Eligibility Verification Applicants must enter their educational qualifications and upload relevant academic documents. These details are reviewed to confirm the applicant's eligibility for the selected programme as per university norms. 3. Programme Fee Payment Upon successful document submission and verification, students proceed to make the programme fee payment, which completes the registration and confirms enrolment into the chosen academic programme. This web-enabled registration process ensures a user-friendly, transparent, and secure experience for learners across geographies, forming the first step toward a fully digital academic journey at Amity University Online.
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	Active Engagement of Learners and Analytics-Based Reporting At Amity University Online, promoting active learner engagement and monitoring academic progress are key priorities to ensure quality education and the achievement of learning outcomes. To support this, the Learning Management System (LMS) includes a built-in analytics tool that helps track how students and faculty interact with the platform. This allows the university to identify areas of improvement and take timely action. Key Features of the Analytics Tool: <ol style="list-style-type: none"> A. Monitor Usage and Engagement <ul style="list-style-type: none"> • Tracks how often and how actively students and faculty use the LMS. • Generate detailed reports at different levels—university, department, course, and individual. • Provides course activity reports to instructors for better course monitoring. • Offers live tracking of user activity based on: <ul style="list-style-type: none"> o Where the activity is happening (context), o What actions are taken (e.g., viewing content, submitting assignments), o When the activity occurs (timing and frequency). B. Enable Actions and Improvements <ul style="list-style-type: none"> • Helps plan targeted support and training based on report findings. • Measures the impact of these actions to ensure they are effective. • Sends regular alerts and reminders to keep learners engaged and on track. This system helps create a more responsive and effective learning environment by using real-time data to support students and improve teaching methods.
Payment Gateway –using Digital Payment system	Admission platform has the provision to pay fees online via various PG (Payu/Zest/Paytm), student can pay fees by using a Credit cards, Debit card and Internet banking.

Tracking the delivery of a Course or programme	Tracking the Delivery of a Course or Programme At Amity University Online, course delivery is carefully planned and monitored in three key phases to ensure quality and consistency. i. Pre-Delivery Courses are created with a standard format to maintain uniformity across all programmes. The Subject Matter Experts (SMEs), Instructional Designers (IDs), and LMS Team work together to design the best way to present different types of learning content. The LMS team also audits and reviews the course setup to make sure everything is in place as planned. A separate content audit checks that all required materials are available in the correct sections of the LMS. ii. During Delivery The Quality Compliance Auditor ensures that the correct and updated content is delivered to learners. Amity uses the "Just in Time" (JIT) method to deliver the right content at the right time to the right students. iii. Post-Delivery After course delivery, the focus shifts to checking whether students are actively using the content and progressing towards the learning goals. Learning analytics and reports help track student and faculty activity, allowing timely support and encouraging engagement
Technical Know-how or Skills Requirements	Amity University Haryana provides a detailed platform orientation during the student onboarding process. However, to succeed in online learning, students are expected to have some basic technical skills, including: <ul style="list-style-type: none"> Using Data Management Techniques Basics of Artificial Intelligence Using MS Excel for Data Analysis Posting in discussion forums and submitting assignments on the LMS Using basic word processing tools like MS Word Taking online exams Using video conferencing tools like Google Meet, Zoom, or MS Teams Being open to learning new computer skills when needed These skills help students navigate the online learning environment with ease and make the most of their academic experience.

Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-

Amity University Haryana's LMS (Learning Management System) offers a comprehensive online learning solution that includes content consumption, assignments, and assessments. The university maintains a robust tightly integrated and scalable IT Infrastructure hosted on the cloud to manage the student lifecycle from enrolment to graduation. Lead nurturing and conversion through the integration of Lead management application. Integrated Student Support System built on Fresh-Desk / WhatsApp / SMS/ e-Mail modules. The comprehensive Student Information System is built on in-house ERP/UMS and managed by an in-house technology team. The SIS is tightly integrated with the custom-developed Learning Management System (LMS) platform amigo.amityonline.com. Cloud-hosted applications for uninterrupted access. SSO facilitated the movement of users between multiple integrated platforms. The entire personal data of learners is DLP secured. ICT infrastructure is fully protected by dedicated firewalls and 24/7 monitoring through NMS tools. A dedicated team of SW Development, Server administration, and Network Administrators. An end-to-end (closed-loop) feedback system is implemented to enhance the learner experience. Well-supported with mobile responsive platform.
