GUEST SPEAKERS

At Amity University - Haryana we believe that the Industry Interactions by Corporate Guests are a great tool for the improvement of the students. Students have the opportunity to learn something new or hear a new perspective on a topic that interests them from a guest speaker. Students can also discover a new interest in a topic where previously they had little interest. The guest speaker is the “real world” arriving in the classroom.

For the guest speakers, it's a chance to share their perspectives on what the world of business is like, their passion for what they do, to make some connections with potential employees, and to offer their well-earned words of advice
