

AMITY
UNIVERSITY
— GURUGRAM —

REPORT ON SUSTAINABLE DEVELOPMENT GOAL

17 PARTNERSHIPS
FOR THE GOALS

**SDG 17:
Year 2022-23**

Over view of SDGs

SDG 1

Amity University Haryana is committed to eradicating poverty, supporting the United Nations Sustainable Development Goals, and promoting socioeconomic growth. Key initiatives include:

- 1. Inclusive Education:** The university provides need-based admissions and scholarships, with a merit-cum-need admission policy aimed at socioeconomically disadvantaged students. For example, 8% of the 2022-23 student body came from marginalized groups.
- 2. Financial Support:** AUH facilitates education loans, collaborates with banks for concessional loan rates, and provides installment options for fee payments.
- 3. Practical Learning and Employment:** Students engage in internships and paid projects to gain industry experience. The Corporate Resource Centre supports near-100% placement rates, with 54,000 students placed in 2022-23.
- 4. Entrepreneurship and Skill Development:** Through the Amity Innovation Incubator, students receive mentorship, financial aid, and business resources, fostering entrepreneurial skills and job creation. The university's role as a training partner under PM YUVA Yojana aims to train 2,500 entrepreneurs over five years.
- 5. Community Outreach:** AUH organizes medical camps and conducts socioeconomic surveys in nearby villages to identify and meet community needs in health, nutrition, and renewable energy.

SDG 2

Amity University Haryana (AUH) supports the United Nations Sustainable Development Goal 2 (SDG 2), which focuses on eradicating hunger and ensuring food security. Key initiatives include:

- 1. Education and Outreach:** AUH offers degree programs in Dietetics, Nutrition, and Hospitality to educate students and the community on healthy eating. The university also hosts workshops, webinars, and community outreach on nutrition, with an emphasis on practical applications.
- 2. Research and Innovation:** Faculty and students at AUH engage in research on nutrition, food security, and sustainable agriculture. Several publications, book chapters, and patents highlight their contributions, addressing issues such as nutrition, food fortification, and sustainable agricultural practices.
- 3. Healthy Food Choices:** AUH maintains food quality and safety on campus, offering affordable, nutritious meals across eight food service points. These facilities adhere to high standards of hygiene and provide diverse dietary options.
- 4. Sustainable Agriculture:** AUH's campus farms produce organic vegetables and dairy, with a focus on eco-friendly practices. The dairy farm supplies fresh milk, while biogas from cow dung powers campus facilities, demonstrating the university's commitment to renewable energy.
- 5. Community Engagement:** AUH reduces food waste by donating excess food to underserved communities and partners with the Robin Hood Army to address local food insecurity. Faculty members also provide nutrition education and guidance on combating malnutrition in nearby communities.

These efforts reflect AUH's commitment to promoting food security, health, and sustainable practices, advancing the global goal of Zero Hunger.

Over view of SDGs

SDG 3

Amity University Haryana (AUH) supports the United Nations Sustainable Development Goal 3 (SDG 3) by promoting health and well-being through a variety of educational, community outreach, and research initiatives:

1. **Educational Programs:** AUH offers diverse health-related programs, such as nutrition, optometry, nursing, and speech pathology, emphasizing sustainable practices. Courses on public health, clinical research, and sustainable nutrition are integrated to prepare students for global health challenges.
2. **Community Outreach:** AUH organizes health awareness initiatives like webinars, health camps, and student-led events. These activities include free dental camps, eye screenings, nutrition clinics, and mental health workshops, which address public health issues and promote sustainable diets.
3. **Research:** Faculty and students engage in high-impact research, with publications in nutrition, healthcare, and sustainability. Projects range from dietetics innovations to sustainable agriculture, with multiple patents filed by students.
4. **Mental Health Support:** AUH offers free mental health services for students, faculty, and the community, focusing on well-being through workshops, guest lectures, and counseling.
5. **Collaborations:** Partnerships with hospitals, NGOs, and wellness organizations provide practical experience and career opportunities, strengthening AUH's healthcare education network.

Through these initiatives, AUH advances SDG 3 by fostering a healthier, more sustainable community.

SDG 4

The initiatives of Amity University Haryana (AUH) to align with Sustainable Development Goal 4 (SDG-4), which promotes inclusive and equitable quality education and lifelong learning. Key sections include:

1. **Commitment to Education and Sustainability:** AUH's educational programs aim to produce skilled, socially responsible individuals. The university integrates SDG principles into its curriculum, research, and community outreach.
2. **Teaching and Learning:** AUH employs experiential learning, ICT-enabled pedagogy, and a green campus to foster a culture of sustainability. Curriculum aligns with multiple SDGs through courses in diverse fields like sustainability, business, and technology.
3. **Research and Innovation:** AUH focuses on research that addresses local and global sustainability challenges. The university has obtained grants for research in areas like climate change, cancer therapy, and early diagnostic biomarkers, contributing to scientific advancements.
4. **Community Outreach and Extracurricular Activities:** AUH engages students in co-curricular activities such as workshops, social welfare projects, and environmental awareness initiatives, encouraging social responsibility.
5. **Infrastructure and Resources:** The university supports learning with facilities like an LMS, centers of excellence, and libraries. It also offers public access to digital resources and webinars to promote lifelong learning and community involvement.
6. **Collaborations and Partnerships:** AUH collaborates with organizations for research, training, and community welfare, including partnerships with government bodies, industry, and international institutions.
7. **Awards and Recognitions:** The university, faculty, and students have received various recognitions, showcasing their contributions to education, research, and sustainability.

In summary, AUH's commitment to SDG-4 involves an integrative approach across teaching, research, and outreach, aimed at fostering a sustainable, inclusive, and equitable educational environment.

Over view of SDGs

SDG 5

Amity University Haryana's initiatives and achievements related to Sustainable Development Goal 5 (SDG-5) on gender equality include:

- Teaching and Learning:** The university integrates gender equality into policies, encouraging diversity, inclusion, and anti-discrimination efforts across all levels of faculty, staff, and students.
- Research and Publications:** There is strong support for female researchers, resulting in significant contributions to high-impact journals. The university fosters a research network aimed at addressing gender issues.
- Governance and Outreach:** Efforts extend to educating the campus and local communities on gender bias, including initiatives by the College of Nursing, which hosts gender awareness activities in nearby areas.
- Admissions and Scholarships:** The admission system tracks gender representation, with 7,779 female applicants in 2022-2023, and provides scholarships and fee waivers for deserving candidates, especially during hardships like COVID-19.
- Infrastructure and Safety:** The campus ensures a safe and inclusive environment, including amenities like a creche for faculty children and a Women Cell to address gender issues and prevent harassment.
- Support Services:** Mentorship programs provide academic and personal guidance, while counseling services offer support for personal and career-related challenges, especially for female students.
- Community Engagement and Events:** Events such as workshops on entrepreneurship for rural women, breast cancer awareness campaigns, and panel discussions on gender equality are conducted to foster gender sensitization.

The report concludes by recognizing ongoing global gender inequalities and reaffirms the university's commitment to empowering women and supporting gender equality through education and community initiatives.

SDG 6

Amity University Haryana detailing's initiatives and achievements related to Sustainable Development Goal 5 (SDG-5) on gender equality for the year June 2022 – May 2023. Key highlights include:

- Teaching and Learning:** The university integrates gender equality into policies, encouraging diversity, inclusion, and anti-discrimination efforts across all levels of faculty, staff, and students.
- Research and Publications:** There is strong support for female researchers, resulting in significant contributions to high-impact journals. The university fosters a research network aimed at addressing gender issues.
- Governance and Outreach:** Efforts extend to educating the campus and local communities on gender bias, including initiatives by the College of Nursing, which hosts gender awareness activities in nearby areas.
- Admissions and Scholarships:** The admission system tracks gender representation, with 7,779 female applicants in 2022-2023, and provides scholarships and fee waivers for deserving candidates, especially during hardships like COVID-19.
- Infrastructure and Safety:** The campus ensures a safe and inclusive environment, including amenities like a creche for faculty children and a Women Cell to address gender issues and prevent harassment.
- Support Services:** Mentorship programs provide academic and personal guidance, while counseling services offer support for personal and career-related challenges, especially for female students.
- Community Engagement and Events:** Events such as workshops on entrepreneurship for rural women, breast cancer awareness campaigns, and panel discussions on gender equality are conducted to foster gender sensitization.

The report concludes by recognizing ongoing global gender inequalities and reaffirms the university's commitment to empowering women and supporting gender equality through education and community initiatives.

Over view of SDGs

SDG 7

SDG 7, "Affordable and Clean Energy," by Amity University Haryana (AUH) details the institution's efforts toward sustainable energy and environmental initiatives. AUH promotes renewable energy, energy-efficient infrastructure, and community outreach to meet global sustainability standards. Key highlights include:

1. **Energy-efficient Infrastructure:** AUH's LEED Platinum-certified campus incorporates sustainable design features, such as reflective roofs and sunken courts, to minimize energy use.
2. **Educational Initiatives:** AUH offers energy-focused programs and courses in renewable energy and sustainability, aiming to foster environmental awareness and innovation among students.
3. **Clean Energy Projects:** The university has implemented a 500kWp solar PV system to reduce CO₂ emissions, alongside low-carbon technologies and sustainable lighting projects.
4. **Community Outreach:** AUH is involved in programs such as Unnat Bharat Abhiyan to educate nearby villages on renewable energy and waste management.
5. **Research and Patents:** The faculty and students engage in clean energy research, supported by multiple government and non-government funding, leading to patents on innovative sustainable technologies.

These initiatives demonstrate AUH's commitment to SDG 7, combining education, research, and community efforts to advance affordable, clean energy solutions.

SDG 8

SDG 8, "Decent Work and Economic Growth," highlights Amity University Haryana's (AUH) commitment to fostering equitable workplaces, supporting economic growth, and encouraging innovation. Key initiatives include:

1. **Academic Programs:** AUH offers undergraduate and postgraduate courses in economics, management, and entrepreneurship, aligning with SDG 8 to prepare students for leadership roles in business and economics.
2. **Entrepreneurship and Innovation:** The Amity Innovation Incubator and Entrepreneurship Cell (E-Cell) provide resources, mentorship, and financial support for student startups and external entrepreneurs. The incubator has launched over 200 ventures and contributed to job creation, economic growth, and technological innovation.
3. **Community Impact:** AUH's Rural Innovation Incubator supports rural entrepreneurs by developing sustainable technologies. Successful projects include implementing solar technology in rural villages.
4. **Research and Publications:** The university has received substantial funding for research, facilitating 142 projects and leading to patents, publications, and books. AUH has established a Patent Facilitation Centre to support faculty in securing intellectual property rights.
5. **Workplace Environment:** AUH upholds international labor standards, promotes gender equality, and enforces anti-discrimination policies, creating a positive and inclusive work environment.
6. **Events and Programs:** AUH hosts various skill-building events, seminars, and workshops, providing students with diverse learning opportunities. Events focus on topics such as sustainable economic development, human values, environmental awareness, and innovation.

This approach positions AUH as a proactive institution advancing SDG 8 through education, research, and community engagement.

Over view of SDGs

SDG 9

SDG 9, "Industry, Innovation, and Infrastructure," outlines Amity University Haryana's (AUH) focus on advancing research, fostering innovation, and supporting infrastructure development. Key initiatives include:

- 1. Research & Innovation Infrastructure:** AUH has over 100 high-tech labs, interdisciplinary research clusters, and centers of excellence in areas like lipidomics, materials science, and cheminnova, which support national and global research collaborations.
- 2. Patent and Publication Output:** The university filed 175 patents and received grants totaling 21.7 crores for 54 research projects. Faculty and students published 4,900 research papers and contributed over 200 book chapters.
- 3. Entrepreneurship Ecosystem:** AUH's Innovation Incubator and Entrepreneurship Cell support student startups through mentorship, financial advice, and workshops. The Rural Innovation Incubator works on sustainable rural solutions, such as solar technology in villages, with positive community feedback.
- 4. Skill Development and Industry Partnerships:** The university collaborates with the National Skill Development Corporation and offers skill-based courses and entrepreneurship training, targeting 2,500 entrepreneurs in five years. Numerous MoUs with industry and academia strengthen its research and entrepreneurial ecosystem.
- 5. Events and Community Engagement:** AUH organized over 40 events, including seminars, workshops, and industry visits, to promote innovation and support budding entrepreneurs.

AUH's efforts to integrate innovation, infrastructure, and industry partnerships reflect its commitment to achieving SDG 9 through comprehensive education, research, and community-focused initiatives.

SDG 10

Amity University Haryana (AUH) is dedicated to reducing inequalities, embracing diversity, and promoting social justice in alignment with Sustainable Development Goal (SDG) 10. With students from across India and over 40 countries, the university emphasizes inclusive admission policies, financial support, accessible infrastructure, and support systems for disadvantaged groups.

Key Initiatives:

- 1. Inclusive Education:** AUH offers diverse undergraduate and postgraduate programs aimed at promoting social justice, including nursing, political science, social work, sustainable management, and healthcare management. Admission policies focus on inclusivity, supporting students from various socio-economic and cultural backgrounds.
- 2. Scholarships & Financial Aid:** The university provided scholarships worth approximately Rs. 4.2 crores in 2022, assisting 555 students, with partnerships for student loans.
- 3. Student Support:** Practical experience through internships, student-centric learning, and skill development programs help bridge the gap between academia and industry. The university offers comprehensive support services and fosters a supportive environment for students' overall growth.
- 4. Research & Diversity:** AUH actively supports gender diversity in research and facilitates R&D projects led by women researchers, especially in areas addressing gender inequality.
- 5. Facilities for Disabled Students:** AUH provides accessible infrastructure, including ramps, elevators, Braille resources, and scribes for exams, ensuring equal opportunities for students with disabilities.
- 6. Community Engagement:** Initiatives like entrepreneurship workshops for rural women and legal awareness programs for villagers aim to empower and educate local communities.
- 7. Anti-Discrimination Policies:** AUH enforces policies to prevent discrimination and support equal rights, including specific regulations for sexual harassment prevention, non-discrimination against women, and protection for those reporting discrimination.

Over view of SDGs

SDG 11

Aligned with SDG 11, AUH is committed to creating sustainable, inclusive, and resilient communities. The university's LEED Platinum-certified campus is designed with environmental sustainability at the forefront, incorporating green spaces, sustainable transport, and accessible infrastructure.

Key Initiatives:

1. **Sustainable Infrastructure:** AUH's LEED Platinum certification attests to its green building practices, including energy and water conservation. The campus features eco-friendly spaces, promoting accessibility for women, children, and persons with disabilities.
2. **Sustainable Transport:** The university offers affordable and accessible transport, including public transport options, a fleet of low-emission vehicles, and bicycle-friendly infrastructure.
3. **Green Spaces & Heritage:** AUH maintains organic farms, herbal gardens, and biodiversity-friendly zones supporting local flora and fauna. The university promotes cultural heritage through arts, yoga, and Indic studies programs, integrating Indian cultural values into the curriculum.
4. **Research & Education on Sustainability:** AUH conducts research on sustainable urban planning and renewable energy. Students are involved in community outreach, research, and projects focusing on sustainable development, such as crime prevention, green infrastructure, and waste management.
5. **Community Engagement:** Student clubs and university programs promote environmental awareness and sustainability. The campus supports housing for employees, creche facilities, and local community access to facilities.
6. **Events and Outreach:** AUH organizes workshops, webinars, and seminars on sustainable cities and communities, covering topics like zero waste, sustainable architecture, and heritage conservation.

SDG 12

AUH's commitment to SDG 12 focuses on promoting sustainable consumption, production, and resource management. The university implements waste reduction, recycling, and efficient energy use while encouraging sustainable lifestyles among students and staff.

Key Initiatives:

1. **Education on Sustainability:** AUH integrates SDG-aligned programs, offering courses in sustainable management, renewable energy, environmental sciences, and climate science. Specialized electives, like climate science and disaster management, prepare students for addressing global sustainability challenges.
2. **Waste Management:** The university has a comprehensive waste management system, categorizing waste into solid, liquid, and electronic types. It partners with certified vendors to manage and recycle waste, including biogas production and composting systems for organic waste.
3. **Water Conservation:** AUH operates effluent and sewage treatment plants to recycle wastewater for horticulture and other uses, promoting groundwater replenishment. Wastewater from cafeterias and labs is treated separately and reused responsibly.
4. **E-Waste Management:** AUH tracks and responsibly disposes of electronic waste, often opting for equipment buy-back and recycling. The university collaborates with approved suppliers for recycling and eco-friendly disposal.
5. **Research on Sustainable Practices:** Faculty and students conduct research on sustainable tourism, waste management, and environmental conservation. Projects include sustainable tourism post-COVID, urban waste management, and sustainable resource management.
6. **Community Engagement:** Students participate in projects addressing local needs, promoting awareness about reducing food waste, recycling, and water conservation. Student clubs engage in community outreach, supporting the surrounding communities in adopting sustainable practices.

Over view of SDGs

SDG 13

Amity University Haryana (AUH) is actively pursuing Sustainable Development Goal (SDG) 13, Climate Action, through various initiatives aimed at minimizing environmental impact and promoting sustainability on campus and beyond.

Key Initiatives:

- Living Laboratory of Sustainability:** AUH implements eco-friendly practices, including "nature-just" development, green buildings, and renewable energy sources. The campus preserves native vegetation, supports biodiversity, and integrates sustainable design in infrastructure.
- Low Carbon Transition:** AUH is working towards carbon neutrality by 2028 through solar energy installations, LED lighting, and biogas plants. The university minimizes carbon emissions by reducing reliance on grid electricity and encouraging the use of public transport.
- Environmental Education and Research:** AUH incorporates sustainability and climate science into academic programs, offering courses in environmental studies, renewable energy, and green building. Partnerships with organizations such as NASA and IITM support air quality and climate research, with facilities like 24/7 air quality monitoring.
- Policy and Governance:** AUH's Environmental and Sustainability Policy outlines goals for reducing water and carbon footprints through rainwater harvesting, waste management, and renewable energy use. The university's efforts have earned it the LEED Platinum certification.
- Stakeholder Engagement and Community Outreach:** AUH hosts numerous events, such as workshops and educational visits, focused on sustainability and climate awareness. Collaborations with government and research agencies help extend AUH's impact on climate action.
- Research and Innovation:** The university is a hub for climate-related research, producing numerous publications and patents focused on sustainable technologies, air pollution control, and renewable energy.

Amity University Haryana's commitment to climate action and sustainability reflects its role as a model institution, integrating green practices into all facets of campus life while engaging stakeholders in efforts to combat climate change.

SDG 14

Amity University Haryana is actively working to reduce marine pollution and conserve water resources, including local ponds and groundwater. The university believes that sustainable management of natural resources is essential for social and economic progress. It aims to protect oceans, freshwater, and biodiversity while educating students, who represent future leaders, on these issues.

The university offers various undergraduate and postgraduate courses focused on Sustainable Development Goals. Courses like Sustainability Science, Environmental Pollution, and Climate Change Adaptation are available, attracting 64 students interested in these subjects as minor or value-added options.

To support sustainable practices, the university has established a Waste Management Policy acknowledged by all stakeholders and signed contracts for the maintenance of sewage treatment plants (STPs) and effluent treatment plants (ETPs) to ensure the availability of safe water on campus. The Solid Waste Management Policy aims to protect the environment, conserve resources, and reduce waste toxicity.

Rainwater harvesting is a crucial aspect of the university's sustainability strategy, with an elaborate system of 43 wells and 112 bores designed to maximize rainwater collection. Regular cleaning of these systems ensures effective groundwater recharge. The university also strives for zero water discharge by treating and reusing wastewater from various sources on campus.

The wastewater generated is categorized and treated through STPs and ETPs, which helps conserve water and lessen environmental impact. The university monitors its water usage and promotes sustainable practices, including rainwater harvesting and the use of water-efficient technologies. All harvesting pits are cleaned annually before the monsoon season.

Over view of SDGs

The university has received funding for a project to clean wastewater near Bilaspur village using advanced technology, transforming it into a clean water source. This initiative has led to community engagement and education around water management.

Efforts to minimize plastic use on campus include encouraging the use of paper and jute bags. Various sustainability initiatives, such as Swachh Bharat Abhiyan and herbal gardening, support these goals.

Research at the university focuses on sustainable environmental practices, including studies on forest ecosystems and the effects of pollution. Several publications highlight the impacts of plastic and pesticide contamination in water and soil.

Recent events at the university included World Water Day celebrations to raise awareness about water issues and a seminar on advanced materials for water remediation. Staff and students engage in community outreach to inform locals about the negative effects of water pollution on aquatic life, reinforcing the importance of clean water for ecosystems and human health.

SDG 15

Amity University Haryana, located in the Aravallis region, is committed to promoting sustainability and protecting terrestrial ecosystems in line with SDG 15: Life on Land. The university maintains a lush green campus with over 30,000 plant species, herbal gardens, organic farms, and initiatives for sustainable land management. The university focuses on conserving biodiversity, educating the community, and advancing eco-friendly technologies. Forests are vital for human existence, providing oxygen, food, shelter, fuel, and livelihood for tribal communities. Goal 15 of the United Nations' Sustainable Development Goals focuses on ensuring the sustainability of life on Earth by promoting the conservation and sustainable use of terrestrial ecosystems.

Efforts to achieve this goal include planting large-scale tree planting events, water conservation and harvesting, green campus initiatives, herbal gardens, pollution control activities, reducing polythene usage, biogas units, organic farming, and harvesting solar energy. The university also establishes the "AYUSH - AMITY Herbal Garden and Medicinal Plants Distribution Centre" in partnership with the Ministry of AYUSH, which serves as a valuable resource for cultivating and distributing medicinal plants, contributing to biodiversity conservation and sustainable development.

Over view of SDGs

SDG 16

Amity University Haryana is committed to promoting peaceful and inclusive societies, providing access to justice for all, and building effective, accountable institutions at all levels. The university aligns with human rights by promoting societies that respect individual rights, privacy, freedom of expression, and access to information. The university offers various courses covering SDG 16 and aims to create a peaceful society devoid of violence and fear. Students have a wide range of options for courses, including a Military Training course, Communication Skills, Behaviour Science, and Foreign Languages.

Governance measures are implemented to ensure justice, fairness, and ethical behavior. The university's e-Governance effectively manages funding, administration, planning, and testing, with grievance and disciplinary procedures for employees and students. The university's organizational structure supports the maintenance of institutional capacity and the efficacy of education through various committees and boards.

Financial information is audited and made publicly available on the university's website. Participatory bodies for stakeholder engagement are also in place to ensure transparency and accountability in the university's operations.

Community Engagement initiatives

Rural and urban environments often suffer from civic issues and chaotic cityscapes, compromising quality of life. We believe citizens have the right to shape their environment, fostering stewardship, ownership, and equity through sustainable urbanism. Community engagement is vital for sustainable development, ensuring community needs are integrated into planning and plays a pivotal role in government, NGOs, businesses, and healthcare.

The National Education Policy (NEP-2020) emphasizes social responsibility and community engagement, aiming to produce well-rounded, engaged citizens. Aligning with NEP-2020, Amity University Haryana (AUH) has implemented its Curriculum and Credit Framework (NCFUG), incorporating community engagement as a crucial component, including a mandatory 3-credit community service course for undergraduate programs. This course equipped students with knowledge, skills, and motivation to tackle global challenges, fostering proactive community engagement and sustainable solutions. Through experiential learning, case studies, and collaborations with local communities, students will develop practical skills and nuanced understanding of sustainability complexities. Actionable strategies for addressing Sustainable Development Goals students, during their summer break engaged with the Community based organizations like Self-help groups, non-governmental organizations, volunteerism, corporate social responsibility, local bodies such as gram panchayat, Anganwadi, Resident Welfare Association and alike.

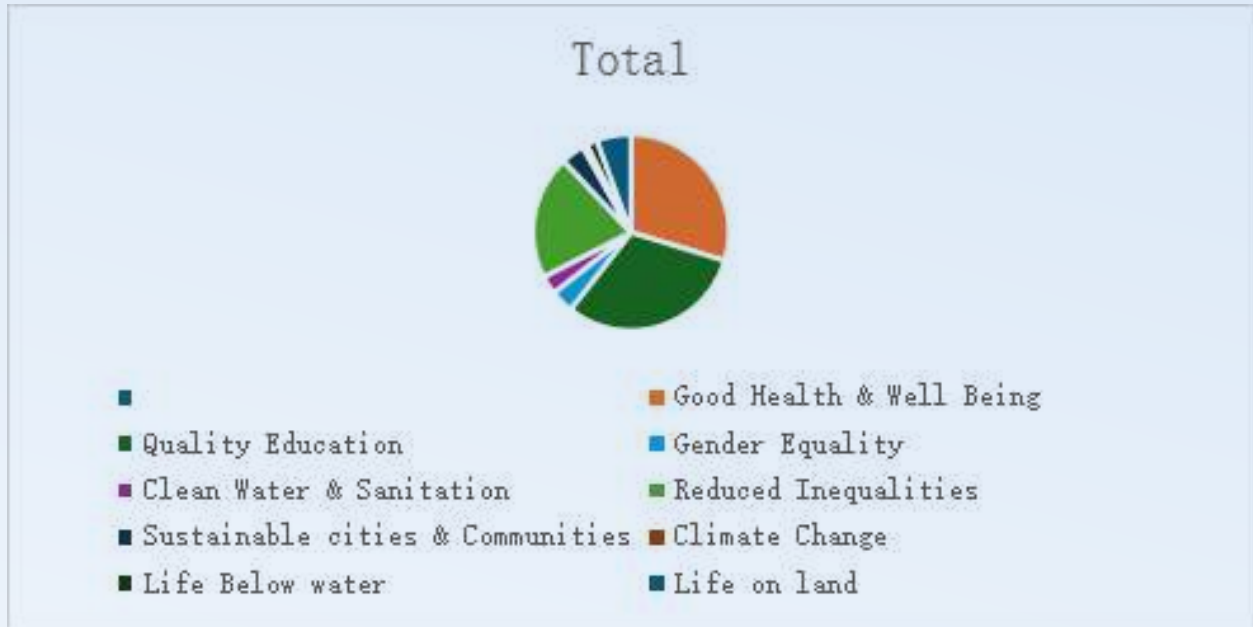

During the 3 weeks of their engagement with the community, students opted to address the issues specific to alleviate hunger, promote and create awareness for good health and wellbeing, promoting quality education, addressing gender inequalities, significance of sanitation and clean water, waste management and recycling and many more.

Students from AUH actively supported the 17 SDG Goals and contributed majorly to the areas pertaining to SDG 3, SDG 4, SDG 5, SDG 6, SDG 10, SDG 11, SDG 15.

Community Engagement initiatives

Understanding the significance of SDG 3, the students of Amity Medical School have undertaken a diverse range of community projects addressing critical health issues and promoting holistic well-being. Their investigations have explored the impact of proper hygiene, nutrition, and exercise on overall health; the transformative potential of sustainable yoga and nutrition practices; and the harmful effects of medication on human health. Other studies have focused on metabolic diseases, dietary awareness, food safety and security, eating out habits and obesity, cholesterol management, and malnutrition. Conducted in various regions, including Kuwait, Haryana, Bihar, and Uttar Pradesh, these studies demonstrate the students' commitment to understanding and addressing health disparities, particularly in vulnerable communities. By employing mixed-methods approaches, surveys, and educational interventions, these initiatives aim to inform evidence-based practices, promote healthy behaviors, and contribute to the betterment of public health outcomes. Aligned with the United Nations' Sustainable Development Goals (SDGs).

Community Engagement initiatives

Students from Amity school of Biotechnology undertook various community engagement projects focusing on social and environmental issues. The projects included working with NGOs for sustainable growth, addressing gaps in societal development, and promoting social justice. Animal protection and welfare, including veterinary practices and raising awareness about animal welfare issues, Palliative care programs, integrating physiotherapy to enhance patient outcomes and quality of life. Community mobilization and empowerment, forming self-help groups for rural women, healthcare support in government hospitals, bridging gaps between patients and healthcare providers, educational initiatives, including teaching in government schools, promoting educational equity, environmental conservation through tree plantation drives. social work and volunteering in hospitals, addressing multifaceted patient needs, Solid waste management surveys, promoting sustainable urban development and projects with organizations like SUDHA Society, focusing on education and healthcare initiatives. Nevertheless, these projects demonstrate the students' commitment to social responsibility, community engagement, and sustainable development, aligning with the United Nations' Sustainable Development Goals (SDGs). Similarly other students of Amity University Haryana- Amity Business School, Amity College of Commerce, Amity school of Economics, Amity school of Behavioral and applied science, Amity Institute of Information Technology, Amity School of Applied Sciences and Environmental Sciences, Liberal Arts, School of Communication have contributed to the community by taking up projects related to "Learning, Growth and Development" at Lotus Petal Foundation, focusing on donor engagement and data management. Empowering Individuals with Intellectual and Developmental Disabilities" at Uma Educational & Technical Society (UETS), enhancing life skills and social interaction. Bridging Gaps through Quality Education" with Badlaav Foundation, supporting underprivileged students. Community Engagement and Social Awareness Through Education" with Taleem Society, promoting education and health awareness. Promoting Good Health and Well-Being through NGO Work," educating communities on healthy lifestyles and hygiene. Improving Eye Health Access in Underserved Regions" at Bardiya Eye Hospital, Nepal, providing affordable eye care services. Students have also dwelled on the areas of Corporate social responsibilities and explore effective community engagement strategies for sustainable development at Jaquar, addressing the concern for SDG 6 Clean Water and Sanitation" with Dream Girl Foundation, improving access to water and sanitation. Education and Empowerment by Social Awareness through Education and Camps" with Yatan NGO, promoting literacy, hygiene, and women's empowerment, Impact of Evoluer Solutions," supporting individuals with special needs through inclusive education, Edu Explorers," fostering cognitive and emotional growth through interactive sessions.

Community Engagement initiatives

Amity students conducted community engagement projects with various NGOs, addressing pressing social and environmental issues. A student from Amity Business School Hassan explored the "Growing Minds Initiative" with Yuva Vikas Morcha (YVM), focusing on holistic youth development and societal transformation. Another student examined "Social Inclusion and Community Development" through Nakshatra Education Society (NES), highlighting deaf children's talents and promoting inclusive education. Meanwhile, a study with Green Dream Foundation tackled "Waste Management Action and Recycling," raising awareness about environmental challenges. Lastly, research with Speak Up World Foundation (SWF) emphasized "Education and Empowerment" for underprivileged communities, ensuring access to basic human rights and environmental sustainability. These projects demonstrate the students' commitment to addressing global challenges and creating positive change.

These community engagement projects demonstrate the power of collaborative efforts between NGOs and students in addressing pressing social and environmental challenges. By empowering youth, promoting inclusive education, addressing environmental issues, and ensuring access to basic rights, these initiatives contribute to creating a more equitable, inclusive, and sustainable society.
