MADHYA PRADESH

1.3.1 Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum

S.N.	Name of Institute/School	Programme Name	Semester	Course Code	Course Name	Gender, Environment and Sustainability, Human Values and Professional Ethics into the Curriculum	Description of the Course
1	AIB	B.Tech. & B.Sc. Biotechnology	I	EVS – 142	Environmental Studies - I	Environment Sustainability	The term environment is used to describe, in the aggregate, all the external forces, influences and conditions, which affect the life, nature, behaviour and the growth, development and maturity of living organisms. At present a great number of environment issues, have grown in size and complexity day by day, threatening the survival of mankind on earth. A study of environmental studies is quite essential in all types of environmental sciences, environmental engineering and industrial management. The objective of environmental studies is to enlighten the masses about the importance of the protection and conservation

							of our environment and control of human activities which has an adverse effect on the environment.
2	AIB	B.Tech. & B.Sc. Biotechnology	II	EVS– 242	Environmental studies II	Environment Sustainability	The term environment is used to describe, in the aggregate, all the external forces, influences and conditions, which affect the life, nature, behaviour and the growth, development and maturity of living organisms. At present a great number of environment issues, have grown in size and complexity day by day, threatening the survival of mankind on earth. A study of environmental studies is quite essential in all types of environmental sciences, environmental engineering and industrial management. The objective of environmental studies is to enlighten the masses about the importance of the protection and conservation of our environment and control of human activities which has an adverse effect on the environment.
3	AIB	B.Sc. Biotechnology	VI	BSB601	Environmental Biotechnology	Environment Sustainability	The objective of this course is to familiarize the students with different processes and use of microbial technology that can be employed for a

							cleaner environment. The course also aims to make the students aware of legislation and rules prevalent to control the degradation of our environment.
4	AIB	M.Sc. Biotechnology	II	MSB 206	Environmental Biotechnology	Environment Sustainability	To introduce the students to regenerate clean environment using biotechnology as the key tool and provide them the insight for eco-friendly approach along with the concept of sustainable development.
5	AIB	Ph.D. Biotechnology	I	PRP 102	Research & Publication Ethics	Ethics	The Research & Publication Ethics (RPE) paper in Ph.D. coursework is designed to instill ethical principles and practices in scholarly research and publishing. This course equips researchers with the knowledge and skills to conduct ethical research, ensure integrity, and navigate the complexities of academic publishing.
