			Course Name :	POC-I (Theory)		
S.No	Enrollment No.	Name	Counselling Date	Grievances of Student	Suggestion by Faculty	Remarks
1	A61613323100	AANYA JAIN	17/10/2023	1. Problem in understanding and remembering the concept of chemistry 2. Issues in writing various reaction and answers in english	Read before lecture. Focus on the main points in lecture. Rework your notes after lecture. Work through the notes carefully, and make sure that you understand each concept. Redraw any structures or important reaction. Read and take notes on the assigned material before you come to class. Take a core chemistry idea and apply it to a new situation or problem. Use critical thinking to solve problems. Working with a small group of students (3-4) will enhance your learning through the exchange of ideas. Teaching others is one of the best ways to learn chemistry.	N/A

Batch / Sec :		2022-2026/(A,B)	Course Code :	BP 301T		
			Course Name :	POC II Theory		
S.No	Enrollment No.	Name	Counselling Date	Grievances of Student	Suggestion by Faculty	Remarks
1	A61613322074	Mr ACHAL GUPTA	17/10/2023	1. Problem in understanding and remembering the concept of chemistry 2. Issues in writing various reaction and answers in english	Read before lecture. Focus on the main points in lecture. Rework your notes after lecture. Work through the notes carefully, and make sure that you understand each concept. Redraw any structures or important reaction. Read and take notes on the assigned material before you come to class. Take a core chemistry idea and apply it to a new situation or problem. Use critical thinking to solve problems. Working with a small group of students (3-4) will enhance your learning through the exchange of ideas. Teaching others is one of the best ways to learn chemistry.	N/A

S.No	Enrollment No.	Name	Counselling Date	Grievances of Student	Suggestion by Faculty	Remarks
1	A61613322074	Mr ACHAL GUPTA	19/10/2023	1. Students learning microbiology often struggle with the complexity of the subject, including understanding intricate microbial processes and terminology. 2. Issues in writing answers in english	1. Suggestion to make short notes of content and practice by writing the questions and answers 2. students suggested to actively participate in lab work for practical understanding and use visual aids such as diagrams to simplify and retain complex microbiology concepts. 			Academic Year:	2023-2024		
Program/ Sem :	B.Pharm (3rd)		Course Code :	BP304T		
Batch / Sec :	2022-2026		Course Name :	Pharmaceutical Engineering (Theory)		
S.No	Enrollment No.	Name	Counselling Date	Grievances of Student	Suggestion by Faculty	Remarks
1	A61613322074	Mr ACHAL GUPTA		1. Problem in understanding some critical points of orifice meter & Venturi meter and principle of Flow of fluid. 2. Problem in understanding basic difference between heat exchangers and heat interchangers. 3. Working mechanism of Fractional Distillation. 4. Students was having one general confusion regarding the similarities and lengthy matter of all machineries. 5. Working Mechanism of freeze dryer	1. Suggested to study on regular basis. 2. Corelate instruments with regular using indtruments at home for better understanding. watch videos of equipments on you tube. Make notes in flow chart.	N/A

SLOW LEARNER - Counselling Form

Program / Sem :		Academic Year:		2023-2024		
Batch / Sec :		Course Code :		BP504T		
		Course Name :		PHARMACOGNOSY AND PHYTOCHEMISTRY II (Theory)		
S.No	Enrollment No.	Name	Counselling Date	Grievances of Student	Suggestion by Faculty	Remarks
1	A61613321034	Mr AAYUSH BHUSHAN	1: 26-10-2023 2: 03-11-2023 3: 16-11-2023 4: 21-11-2023 5: 06-12-2023	1. Students found it challenging to understand the complex phytochemical pathways involved in secondary metabolite biosynthesis. 2. The extensive list of medicinal plants and their associated phytochemicals felt overwhelming for students to memorize. 3. Students expressed concerns about not being able to fully understand the theoretical isolation and extraction techniques without practical exposure. 4. The classification of various phytoconstituents, such as alkaloids, flavonoids, and glycosides, was confusing and difficult for students to follow. 5. Students expressed difficulty finding adequate and comprehensive study materials specific to Pharmacognosy and Phytochemistry II.	1. conducted additional tutorials and provided simplified diagrams to break down the biosynthetic pathways. They also recommended key reference books and online resources to clarify these topics 2. Introduced mnemonic devices, summary charts, and organized the material into smaller, more manageable sections to help students remember plant names and their phytochemical constituents. They also suggested grouping plants based on their therapeutic classes to simplify learning. 3. Arranged demonstrations during lab sessions that illustrated the isolation of secondary metabolites, helping to bridge the gap between theoretical knowledge and practical understanding. 4. Provided additional explanatory materials and comparative tables to clarify the classification of phytoconstituents. . 5. had curated a list of recommended	N/A

SLOW LEARNER - Counselling Form

Program / Sem :		Academic Year:		2023-2024		
Batch / Sec :		Course Code :		BP603T		
		Course Name :		Herbal Drug Technology (Theory)		
S.No	Enrollment No.	Name	Counselling Date	Grievances of Student	Suggestion by Faculty	Remarks
1	A61613321111	ABHISHEK RAJPUT	1: 31-03-2024 2: 10-04-2024 3: 26-04-2024 4: 11-05-2024	<p>1. Comprehensive and up-to-date study materials specific to herbal drug technology were scarce.</p> <p>2. Understanding regulatory guidelines, quality control, and standardization of herbal drugs was challenging.</p> <p>3. The course lacked emphasis on recent trends and cutting-edge research in herbal drug technology.</p> <p>4. The extensive list of herbal drugs, their chemical constituents, therapeutic uses, and regulatory guidelines was overwhelming.</p> <p>5. Retention and Recall: The need to retain and recall a large amount of detailed information over the course of the semester and beyond can be difficult, especially under the pressure of exams and assessments.</p>	<p>1. A curated list of reference books, research papers, and electronic resources was provided.</p> <p>2. Dedicated sessions were organized to elucidate regulatory aspects, featuring real-world examples and case studies on herbal drug approval processes.</p> <p>3. Incorporated recent case studies, research articles to update students on the latest advancements. Students were encouraged to explore recent patents and innovations in the field to foster a culture of continuous learning.</p> <p>4. To aid retention introduced mnemonic devices, summary charts, and mind maps. Grouping herbal drugs based on common properties or uses was also employed as a strategy to enhance memorability.</p> <p>5. Provided access to high-quality video demonstrations of dissections and other lab procedures. These videos were recorded by experienced instructors and supplemented with detailed explanations and annotations.</p>	N/A
