

Promotion of Research

1. **Encouraging and supporting faculty research:** This is done through various means, such as offering research assistantships and recognizing and rewarding faculty who are actively engaged in research.
2. **Creating a supportive research environment:** Amity University is providing the necessary infrastructure, facilities, and resources to support research activities. This includes access to specialized equipment, libraries, and computing resources.
3. **Fostering collaboration and networking:** This is done by organizing research seminars, conferences, FDPs and workshops, and by encouraging faculty to collaborate with researchers from other institutions. We are also signing MoUs with institutes/universities and industries to foster research activities.
4. **Recognizing and rewarding faculty for research excellence:** Amity University is recognising the researchers who are contributing to the good and giving incentives for quality research work.

Promotion of Research Facilities

1. **Developing and maintaining state-of-the-art research facilities:** Amity University has having world-class infrastructure with a good number of laboratories and other required support for the research. Amity is investing in the latest research equipment and technologies and ensuring that these facilities are properly maintained and upgraded as needed.
2. **Providing access to research facilities:** The researchers not only have access to all research facilities in Amity University Gwalior but also can work in the laboratories available on other campuses of Amity University in India. The research facilities are also available to all researchers, both internal and external, and ensure that they are used in a safe and responsible manner.
3. **Promoting the use of research facilities:** Amity University is continuously organising training and workshops for internal as well as external researchers and students and publicizing the availability of these facilities to the broader research community.
4. **Increased research productivity:** Amity University has faculty and research scholars who are actively engaged in research and who are producing high-quality research publications.
5. **Enhanced reputation:** Amity University is a research and innovation-driven university that is known for its research excellence which attracts top students and faculty.
