### President Message

In this day and age, security is important. As you know, we have always been very concerned about campus security. We will be no University campus without turnstile access, entry cameras, security dogs, patrolling so many security personnel. We may feel inconvenienced by these measures but it is being done for our safety. I am happy that thousands of students are patiently on a daily basis.

If there are any recommendations to further increase your safety, or to improve anything in the University you can always reach me.
