Organized Social Activity Project with Cashless Economy communication to the society in Slums

NSS- AUMP was organized Social activity Project with Cashless Economy communication to the society in markets, Slums.

The programme aim was to aware the people about the cashless economy communication and instill the information regarding without using cash they can do any purchasing.

Reducing Indian economy's dependence on cash is desirable for a variety of reasons. India has one of the highest cash to gross domestic product ratios in the world, and lubricating economic activity with paper has costs. According to a 2014 study by Tufts University, The Cost Of Cash In India, cash operations cost the Reserve Bank of India (RBI) and commercial banks about Rs21,000 crore annually. Also, a shift away from cash will make it more difficult for tax evaders to hide their income, a substantial benefit in a country that is fiscally constrained.

Governments across the world have stepped up their fight against cash. Cash is being increasingly viewed as a curse that mankind needs to rid itself of. The goal is to move towards a cashless economy. The closer an economy is towards this goal, the more successful it is considered to be. However, the concept of cashless economy is not understood by many. It is still the prerogative a few economists and academicians.

Social activity Project with Cashless Economy communication to the society in markets, Slums was held on 5 March, 2017. In this activity, 10 teachers and 68 students participated. NSS AUMP is extremely thankful to all those who have supported this activity. Chairman, NSS, Major Gen. Dr. S. C. Jain, VSM**, Director, Amity School of Engineering & Technology, Dr. Rachana Kathal, PO, NSS AUMP and other faculty members appreciated the volunteers efforts and contribution to complete this task and it was a worth seeing moment.

Fund Raising activity for Visually Challenged Girls

A fund raising activity for visually challenged girls was organized by NSS AUMP. The AUMP affirms its commitment to empower visually challenged girls become self-reliant by providing comprehensive rehabilitation, education and employment opportunities. AUMP makes efforts to help visually challenged girls to gain self-employment by fund raising activity for such trades as Petty Shops, and other small-scale businesses.

India is home to world's largest visually impaired population housing over 50 lakh people. Our country also tops the chart for the largest population of corneal blind in the world. We are a long way from ensuring an inclusive society for our visually challenged citizens because of taboos that exist around organ donation, leading to corrective surgeries still being a far-fetched reality. However, a few individuals, organizations, NGOs, and voluntary groups are leading the way in setting exemplary standards of inclusion.

The fund-raising activity was held on 5 to 10 march, 2017. This activity was regularly conducted for 4 days in AUMP campus and different places of Gwalior. In this activity, 10 teachers and 210 students participated. NSS AUMP is extremely thankful to all those who have supported this activity and have sympathies for visually challenged girls to stand their own feet.

Chairman, NSS, Major Gen. Dr. S. C. Jain,VSM**, Director, Amity School of Engineering & Technology, Dr. Rachana Kathal, PO, NSS AUMP and other faculty members appreciate the volunteers efforts and contribution to complete this task.
