Amity University is a research driven University which offers higher education in diverse field from Engineering, Management, Life Sciences, Applied Science and the like. Amity University provides quality platform for research in field of Academics. The campus is organizing International Conference on Technological Advancements and Innovations on $14^{th} - 16^{th}$ September 2023.

This Conference includes many topics which were deeply deliberated and which brewed new ideas. Thus, giving rise to new avenues for researcher. We aim to take those concepts further to derive fresh hypothesis and arrive at the logical deductions. The participation of scientist from across the globe was very encouraging in our last conferences organized in India. This time we are anticipating even larger congregation from more diverse domains as we are reaching out too many eminent philosophers, thinkers and academicians from scientist fraternity.

Sub-themes (but not limited to):

Data Sciences and computational intelligence are rising research domains with applicability in various popular fields like clinical systems, google now features,

probability graphic models, video, audio mining etc. Researchers are invited to share their novel work in latest trending area of data sciences and computational intelligence.

- Data Mining
- Software Engineering
- Deep Learning
- Machine Learning
- Internet of Things
- Cloud Computing
- Security and Privacy
- Artificial Intelligence
- Natural Language Processing
- Other similar domains
