SYMPOSIUM

on

“Sustainability for the Next Generation: Advancing Environmental Solutions in Policy and Practice”

15th September 2023

ABOUT THE SYMPOSIUM:

In an era where the consequences of environmental degradation have become increasingly apparent, we recognize that we stand at a critical crossroads. Our actions today will determine the quality of life for the next generation, and it is our responsibility to ensure that they inherit a planet capable of sustaining their dreams and aspirations.

The Symposium on "Sustainability for the Next Generation: Advancing Environmental Solutions in Policy and Practice" is being organized to bring together experts, visionaries, policymakers, practitioners, and young minds who are instrumental in driving sustainable change forward with the aim of identifying new and innovative solutions for addressing pressing environmental challenges, such as climate change, biodiversity loss, pollution, and resource depletion.

The symposium features a range of keynote speeches, panel discussions, and interactive sessions covering a wide range of topics related to sustainability including discussions on the role of policy in promoting sustainability, the use of technology and innovation to address environmental challenges, and the importance of community engagement in sustainable development.

The Symposium is expected to delve into multifaceted topics, exploring cutting-edge research, transformative policy initiatives, and sustainable practices to generate valuable insights and recommendations for promoting sustainability in the 21st century.

OBJECTIVES:

- To identify and discuss pressing environmental challenges facing our planet.
- To explore and share innovative solutions and best practices for addressing these challenges.
- To examine the role of policy in promoting sustainability and identify opportunities for improving policy frameworks and governance systems at the local, national, and international levels.
- To foster interdisciplinary collaborations and partnerships among researchers, policymakers, and practitioners to promote sustainable development and environmental stewardship.
- To highlight the importance of social justice, equity, and inclusion in environmental decision-making and policy development, and to explore ways to ensure that sustainability initiatives are inclusive and benefit all members of society.
- To inspire and engage the next generation of leaders and decision-makers in the field of sustainability, by showcasing the latest research, innovations, and best practices in sustainable development and environmental policy.

WHO SHOULD ATTEND:

- Students
- Researchers
- Scientists
- Academicians
- Government bodies and policy makers
- Corporates and businesses
- Foundations and civil society bodies

REGISTRATION DETAILS:

- Fees : ₹ 500/participant + 18% GST
