14-16 September 2023

AMITY INSTITUTE OF BIOTECHNOLOGY

Organizes

**SYMPOSIUM**

on

**TECHNOPRENEURSHIP IN LIFE SCIENCES FOR \$5 TRILLION ECONOMY**

14th September 2023

### **ABOUT THE SYMPOSIUM:**

From technology flows wealth. Technology can thus play a major role in accelerating the Indian economy but would require focus on attaining leadership in various niche technological fields. Indian government is working towards making India a \$5 trillion economy; to contribute to this vision we must fully realize the potential of technology and develop a techno-entrepreneurship - an approach that focuses on leveraging the power of technology for social benefit. There are many ways that techno- entrepreneurship can help us achieve this goal: from creating new jobs and businesses, to making our world more efficient and connected. Technology entrepreneurship can play a critical role in driving the growth of the Indian economy to \$5 trillion. Here are some keyways that technology entrepreneurship can help achieve this goal: innovation, job creation, export promotion, and government support. Overall, technology entrepreneurship has the potential to drive the growth of the Indian economy to \$5 trillion by promoting innovation, job creation, export promotion, access to capital, and government support.

### **OBJECTIVES:**

- To promote techno-entrepreneurship for economic growth.
- To identify current bottlenecks and niche areas in driving the growth of the Indian economy to \$5 trillion through techno-entrepreneurship
- To bring together, create linkages and brainstorming among Scientists, technologists, regulators, and stakeholders.

### **WHO SHOULD ATTEND:**

Students/Researchers/Scientists/Academicians/Managers/Other Stakeholders
