Student Clubs and Council

The Student Council and student activity system at Amity University Rajasthan assume a significant position in fostering the development of student involvement, leadership, and participation on campus. Class Representatives are nominated for each class. Besides this, there is a well coordinated network of clubs, committees, and student forums working in different fields of academia, culture, literature, sports, social work and entrepreneurship within the university, which helps in providing students numerous avenues for overall growth and development. Such organizations work in close collaboration with faculty advisors and university management in order to successfully plan and organize various events, competitions, campaigns, and co-curricular activities during the academic year. Meetings of the student representative from diversified groups are regularly organized with the University administration to review ongoing activities, address the concerns of the students, coordinate activities, and make appropriate decisions.
