

Report on Industry Expectation from young B.Tech (AE) professionals

A guest lecture was organized on 27.07.2017 at 1400-1500 hrs for fresh student of B.Tech Aerospace Engineering batch 2017-2021. The details of the lecture are as below:

Topic: Industry Expectation from young B.Tech (AE) professionals

Aim: To motivate the student to provide orientation in choosing different and professional streams of Aerospace Engineering

About Speaker: The industry expert who delivered the Guest lecture was Mr Ashwini Acharya, Chief Executive Simulation Training Pvt Ltd, Greater Noida. He is B.Tech (Aeronautical Engineering) maintenance – Stream from Aeronautical Society of India. He is license holder from DGCA for many aircraft like Cessna 152, Boeing 777 and Airbus 320. His core competence includes start- up projects for commercial and business aviation.

He has held important positions such as Associate Vice President Hawker Service Centre and GA MRO Service facility and Engineering Officer (Maintenance) in Indigo.

Participation: 30 students participated and held very long interactive Session with the speaker.

Outcome:

- (i) Motivation to fresh students to provide early orientation in different streams of Aerospace Engineering.
- (ii) Building professional linkages simulation centre for future interaction, Guest Lecture & student visits.
- (iii) To open scope for placement of our students in Simulation Centres.
