

REPORT on Science Student's Symposium held on 12th December 2017 in J2 Auditorium

1. A Science student's Symposium was held on 12th December 2017. This event was organized jointly with Indian Association of Physics Teachers (IAPT). Amity provided venue, certificates, prizes and lunch. Thirty schools along with 5 students from each school, one teacher from each school and coordinators attended the symposium. Detailed list is attached herewith.

2. After welcome address by Prof. Tinku Basu, Prof. Avasthi spoke on "Exciting world of Nanotechnology". The lecture was key information covering the various properties of nanomaterials, designing of nanodimension materials, device fabrication and entire session of applications in display devices, foods and agriculture, nano medicine including drug delivery.
3. Maj. Gen Bhaskar Chakravarty, Director Admissions has portrayed the picture of entire Amity Universe, nationally and internationally. He also briefed the admission process.
4. After preliminary round of quiz, four teams were selected. There were eight rounds of questions. IAPT members organized the quiz. The students enjoyed the quiz.

5. The winning teams are as follows:
 - First - Amity Gurgaon
 - Second - DAV School
 - Third - DPS Ghaziabad
6. Prize and certificate distribution was held immediately after the quiz.
7. After the quiz, demonstration of lab experiments and lab visits were arranged. Students had many queries regarding the equipment and experiments which were answered in details.
8. Students went back after the lunch. Certificate of participation is provided to all the students, teachers and IAPT members.
9. All necessary arrangements were done by Admiral Kochhar ji. AINT is thankful to him.
