

Certainty of Physical Education and Sports in Amity University

Do we have any ranking???

Amity School of Physical Education and Sports Sciences is an integral part of Amity University following the vision of building the nation and the society through providing total, integrated, trans-cultural quality education and nurturing talent. Physical Education and Sports has been the brightest side of the human existence since existence. In early India, games and sports were very much concerned about the development of the physique and for the art of offence and defense. Also games have been considered a kind of recreation, which played a vital role in the development of a man's personality. There are some well-defined values like the mantra in the Atharva-Veda, saying, "Duty is in my right hand and the fruits of victory in my left". In terms of an ideal, these words hold the same sentiments as the traditional Olympic oath: ".....For the Honour of my Country and the Glory of Sport."
