SPECTRUM CONSULTANTS

Campus Recruitment – 2023 Batch

Only for Students of Amity Education Group

Only for Unplaced & Eligible Students

Last Date to Register – 19th September 2023, 4:00 PM

Company	Spectrum Consultants India Pvt. Ltd.
Website	**www.spectrumconsults.com**
Batch	2022-23
Date of Campus	Will Be Informed
Job Title	Prompt Engineer
Eligible Branches	B.A./M.A. (English, journalism, Media Communication, Communicative English)
Eligibility Criteria	60% & above percentage throughout in SSC, HSC, Graduation and Post-graduation
Employment Type	Full Time Employment
Bond	N0
Roles & Responsibilities	➔ Annotate and fine-tune prompts that guide AI models with advanced linguistic analysis to form contextually appropriate responses. ➔ Experiment with different prompt styles and approaches to make it fluid and sound natural. ➔ Work closely with cross-functional teams to continuously refine our prompt design practices and AI model training pipelines. ➔ Stay current with the latest advancements in AI language generation techniques and provide opinions to enhance prompt strategies. ➔ Review and validate the annotated or generated data to guarantee that it satisfies the specified guidelines and quality standards.

	→ Work with the development team to offer feedback on the model's effectiveness and assist in enhancing it through an iterative process. → Keep precise documentation of annotated or generated data, track progress, and ensure the discretion and safety of the data.
What you will gain	❖ You'll gain a profound understanding of AI models by delving into their capabilities and mastering the art of crafting precisely tailored content. ❖ This journey will allow you to explore linguistic nuances and variations across languages, equipping you to create prompts that resonate effectively with diverse audiences. ❖ You'll find yourself naturally drawn to staying updated on the latest AI advancements, industry trends, and emerging technologies; it's become an exciting area of personal interest. ❖ As you navigate challenges in prompt design, user satisfaction, and optimizing AI models, your problem-solving skills will sharpen, and you'll uncover innovative solutions that push the boundaries. ❖ Working independently and meeting deadlines will become a natural trait that comes with the responsibilities of the role.
Requirements	• College Degree or experience in Linguistics, English Literature, Creative Writing, technical writing, Computational writing, or Journalism. • English teaching experience is also preferred. • English as a first language and excellent written/verbal communication skills. • Understanding of Large Language Models/RLHF. • Candidate should have their own Laptop.
Joining Date	Will Be Informed
Recruitment Process	1 – Online Test, 2-Virtual Interview
CTC	6LPA - 8 LPA
Location	Work From Home (General Shift), if required relocate to Pune in Future.
How to Apply?	Last date to apply – 19th September 2023, 4:00PM APPLY NOW

Our Best Wishes are always with you !!
