

Accenture : Innovation Jockeys Season 5

Are you geared up for Innovation Jockeys 5?

We are sure you've heard about the latest season of Innovation Jockeys and you are already working on your big idea. To remind you, we are inviting submissions on social innovations for three themes:

- **Innovations to prevent corruption/malpractices**
- **Innovations to create a digital India**
- **Innovations for the empowerment of women**

To help demystify the three themes of this year's competition, we have two interesting videos for you.

Themes demystified by Accenture leads

To participate, form teams of 1 to 4 members and **submit your innovations** on or before the **17th of August, 2016**. You could win a host of exciting **prizes!**

We had also conducted a special webinar with Accenture's Anuradha Rajanna and Nagesh Rajopadhye on 24th June. This helped student innovators like you get answers to key questions about this year's competition.

 **Replay the webinar**
