

My Dear Students

Greetings from **Amity Technical Placement Centre (ATPC)**

I welcome you all in most crucial and significant stage of you career i.e. Campus Placements. At this stage knowledge you have acquired from your worthy faculties, the experiences which you have gained from your seniors and the ambition you possess will come into act. This is the high time for you to focus completely on your career and the goal which you have identified.

Amity holds a benchmark for having multiple companies of great repute on campus for recruitments. This is because of the performance of your seniors in the Industry the companies continue to take interest in participating in campus placements year on year. For students passing out in 2018, ATPC listed more than 300 companies who have considered Amity and participated in the Campus Recruitment Drives.

Amity Technical Placement Centre is closely working with the industry of all formats to bring rewarding results for you. It is highly desired from your end as well that you should prepare hard and leave no stone unturned in securing a job from Campus. **Campus Recruitment Process includes Written Test (Aptitude, Quantz, Logical Reasoning, Data Interpretation, and Technical Writing), Group Discussion, Technical Interview and finally HR Interview.**

Predominantly, online aptitude test happens to be the first and foremost screening round, followed by almost each and every company, where students need to practice most. In order to supplement the cause and make you versed with the first level of Campus Placement Processes and procedure Amity Technical Placement Centre is organizing an **Amity Placement Aptitude Test (APAT) 2019** for the students of **B.Tech, M.Tech and MCA**. This test will be proctored by external teams and score will be very vital for every student.
