I visited for study abroad programme to LONDON in the month of November, 2016. which gives the exposure of foreign studies as well as the cross cultural experience. Living and surviving there is something very different from the tourism over there. London is a beautiful country to explore and learn their cultures as there are many known monuments and museums which gives great knowledge.

The SAP offered a unique internship that allowed me to study in Amity, Dubai and explore my interests in 'Business Management'. Over my stay in Dubai, I got the opportunity to interact with the learned community of Dubai, Ms Mehak Shabir (SAP co-ordinator) and Mr Reyaz Ahmed (SAP co-ordinator) who guided me on every step. The SAP trip was really very good. The faculty guide took us on weekends for sight seeing. 50% sponsorship was done by Amity and 50% by us on each destination of sight seeing. We were taught by local faculties of Singapore. They were equally nice. [Read More](#)
