International Year of
CHEMISTRY
2011

“ Planet of Fire and water :
Alterations and Equilibrium
in Chemistry and in our Everyday life ”

The Preysz Móric Committee, working in Eötvös József Gimnázium together with its partner, Institut de Genech, France, kindly invites high school students and their mentors to participate in the Symposium of Young researchers of Natural Sciences

In conjunction with the International Year of Chemistry initiative, the symposium will be held from April 10 to 15, 2011 in Genech, France and is entitled:

“Planet of Fire and water: Alterations and Equilibrium in Chemistry and in our Everyday life”

The Symposium aims at:

- establishing an International Forum of students carrying out individual research in natural sciences
- gaining confidence and sharing experience in participating in a science conference as well as developing students' foreign language skills
- strengthening partnership bonds and traditions

KEY POINTS:

- Groups of 2 or 3 students escorted by 1 or 2 teachers
- Assignments: a 15-minute oral presentation on a high school level research project
- Sightseeing and transportation to Paris, Lille and Bruges (Belgium)
- Fee : 249 € per student all included
372 € per teacher all included
- Full programme and details on request
- Pre-applications must be sent by email by November 30, 2010
